With two million pounds of wool in its possession the La Crosse Wool & Fur company at the present time has what practically amounts to a corner on the wool market in this section of the northwest.

No wool buying firm in the northwest ever had in its possession before, the amount of the product which this firm has succeeded in acquiring. The firm, however, will not admit it has a corner on the market, although in the same breath the manager stated that he had good reasons to believe there was little wool left to buy in this section of the country.

"We have cleaned up the state of Wisconsin in good shape," he said, and went on to state that the firm was still buying and adding to its enormous holdings.

The company's big store house at Front and Main streets is filled to the roof with the big bales of wool and every vacant store building which could be secured in the wholesale district around lower Main street is crammed. Cars upon cars of wool have been arriving over all lines running into the city for the past three weeks consigned to this firm from all over the northwest, and today the accumulation reached the two-million pound mark, with more on the way.

It is the biggest undertaking ever attempted by a wool buying firm in the northwest. With the value of its accumulations already approaching the million dollar mark the firm's buyers are still scouring the country for more wool and the firm is looking for more vacant buildings in which to store it. Wool at wholesale is worth about 30 cents a pound today, and the magnitude of this undertaking can be readily seen when a drop of five cents in price would mean a loss of \$100,000.

ALDERMAN DOWNS HINTS AT GRAND JURY INVESTIGATION

Objects to Payment of Two Bills Which City Comptroller Failed to Stamp With Approval.

Hinting at probable disclosures of "graft" in the city hall if the grand jury was called to investigate, Alderman Downs last night created a sensation at the council meeting and succeeded in holding up a couple of bills by having them referred to the council as a committee of the whole.

"I'm afraid of a grand jury," said Alderman Downs among other things. The incentive for the north side alderman to make his sensation remarks was the appearance of the bills audited by the finance committee. Mr. Downs had evidently been making an investigation, for after the reports were read he arose and demanded that he have a say as to whether or not city employees shall receive advance in salary. He then called attention to the fact that an increase of \$15 per month was provided for Assistant City Engineer Walter S. Wood, the monthly salary roll calling for \$100 for him. Nothing had been said of the raise until the bill was presented, his former salary being \$85 per month.

Alderman Bacheller explained with

CENSUS TAKERS TO SUE

If Not Paid Cent and a Half Will Go In-
to Court.

Enumerators engaged to take the state census in the city will combine to demand a cent and a half per name as recompense for the work they have done, and unless this amount is paid them a suit will be instituted against City Clerk Sieger in the courts.

This in brief was the declaration made to a Tribune reporter this morning by one of the south side enumerators who has completed his work and is awaiting his pay.

Strange to state, none of the enumerators thought to make any sort of a contract or agreement with the city clerk as to the pay he was to receive, and many did not think of the matter at all until their work was completed. Then they began to wonder what they had been working for and endeavored to find out. But no light on the subject could be ascertained in the book of regulations furnished each enumerator by the state. There were long paragraphs regarding recompensation for city, county and village clerks, but nothing specific regarding the amount the enumerators were to receive. City Clerk Sieger seems to be as much in the dark as the enumerators, and declares he will make a trip to Madison next week to find out what he should pay the enumerators. The enumerators think they have a grievance and some of them are doing considerable talking.

The south side enumerator who said that the enumerators were determined to have at least a cent and a half per name for their work, stated further that no sort of a compromise would be considered; the matter would simply be taken into the courts if a cent and a half per name was not forthcoming.

Lincoln Candrian Rescued Eddie Daniels From Drowning

The heroism and rare presence of mind of Lincoln Candrian, the young son of Editor Adolph Candrian of the Abend Stern, last evening, saved Eddie Daniels, the 12-year-old son of Lettercarrier Edward Daniels, from drowning at the public bath on Pettibone island.

The Daniel boy had ventured outside the swimming crates, during the absence of Swimming Instructor Anton Drews a nd was probably taken with cramps. He cried for help and was going down for the third and last time when the Candrian boy swam to his side and rescued him.

The drowning boy clutched his rescuer with a death grip and it was with extreme difficulty and danger that the Candrian youth succeeded in reaching the shore with his burden.

Master Candrian said nothing of the affair and the first known of it, outside of the few people at the bath at the time, was when instructor Drews sent a letter to his father this morning, complimenting the boy for his heroism.

MAYOR WILL ARREST "GASPING TERRORS"

Alderman Grover Makes Complaint Council of Flagrant Violation of Automobile Speed Law.

"If they were poor like the rest of us they would be arrested for it," said Alderman William Grover of the north side.

"All I have been waiting for is a complaint," responded Mayor William Torrance, "we'll arrest them if they're studded with diamonds."

"Then you can consider this a complaint and go after them," continued Alderman Grover, "for the north side people are tired of having their lives endangered by reckless automobile drivers."

And so it is that within a few days some of the wealthy owners and drivers of "Blue Streaks," "Red Devils," "Black Plagues," "Green Dragons" and "White Ghosts" may be brought to a halt with a jar, hauled into police court and fined for breaking the speed ordinance.

In the council last night Alderman Grover made earnest complaint against the manner in which automobiles were driven up and down the principal streets of the north side at the rate of from 30 to 50 miles per hour and demanded that steps be taken to stop it. Mayor Torrance promised to take action.

"We shall arrest them," said the Mayor when questioned by a reporter today, "upon the first complaint."

"But don't you think the average citizen will shrink from taking the initiative in making complaint?" was asked.

"They have no reason to," responded the mayor. "Any citizen can complain and they will be promptly arrested. If I witness a breakage of this ordinance I shall promptly cause the arrest of the violator."

"Do you intend to instruct the police to enforce the ordinance?"

"The police have standing orders to enforce the ordinance," said the mayor, "but in most instances the speeding is done on the residence streets where there are no patrolmen, and we depend upon citizens to notify the authorities of a violation of the law. Anyone we catch driving an automobile to exceed 12 miles per hour will be arrested."

Alderman Grover's criticism which he later turned into a direct complaint to the mayor, before the council last night, was against the machine driven by Austin Cargill.

NEWSPAPER MEN ENJOY TRIP WITH W. S. CARGILL

Mayor of Viroqua Mourns Because He Had no Opportunity to Meet Distinguished Guests With Band

Representatives of the La Crosse press enjoyed the hospitality of W. S. Cargill in a junket to Viroqua over the La Crosse and Southeastern yesterday, and spent a most delightful day. The party left in Mr. Cargill's private car, which with the engine constituted a special train, at 10:30, arriving at Viroqua at 12:05.

Few of the party had been over the road before and the beautiful scenery and productive farms with their growing crops made a most pleasing panorama from the car windows. The thrifty villages through which they passed also attracted considerable interest and came in for much favorable comment. The company has warehouses built or in course of construction at Stoddard, Chaseburg, Coon Valley, Westby and Viroqua. The road is very smooth, considering it is a new line and in places along the line the train speeded along at the rate of nearly a mile a minute with no inconvenience to the passengers.

Arriving at Viroqua Mr. Cargill escorted the party to the Hotel Fortney where a delicious dinner was served. While the party was at dinner Mayor Coffland was presented and extended a hearty welcome. He deplored the fact that he had not been advised of their coming. Had he known of it he would have had the best band in the state (the Viroqua band) out to

paid a compliment to the newspapers as one of the greatest factors in the commercial world and hoped that their influence would add much to the friendly relations existing between La Crosse and Viroqua.

The party started on the return trip soon after dinner and arrived here about 3:30. Upon arriving here Mr. Adolph Candrian thanked Mr. Cargill on behalf of the party for his generosity and genial hospitality and expressed for all the guests their keen enjoyment of the outing.

The Party.

There were in the party the following: President W. S. Cargill, Supt. P. A. Valier, General Passenger and Freight Agent H. L. Chadwick, General Agent A. L. Eidemiller, Chief Engineer George Bradish, all officers of the road; Eastman Irvine, Captain I. H. Moulton, Mr. and Mrs. J. A. Grisdale, Mrs. L. H. Howard of Neillsville; Miss Edna Valier, Miss Adlington of Viroqua, W. E. Barber, Adolph Candrian, Miss Candrian, R. B. Gelatt, Mrs. S. J. Gelatt, Miss Gelatt, F. W. Leahy, H. L. Rood, Mr. and Mrs. George H. Manlove and S. G. Congdon and wife.

Mr. and Mrs. F. C. Bunn and child of Westby joined the party for the remainder of the trip and on the return Mr. and Mrs. I. S. Griffin, Mr. and Mrs. F. H. Graves and Senator and

Maine Feels Trembling Which Lasts For 15 Seconds

(Scripps-McRae Dispatch.)

PORTLAND, Me., July 15.—Two slight earthquake shocks were felt here at 3:10 o'clock this morning. Heavy shocks were felt at Augusta, Bangor and Brunswick. Reports from Thomaston say a shock of fifteen seconds' duration was felt there at five this morning. Houses were shaken and dishes rattled.

The shock was more severe in Central Maine.

The state geologist says the quake was caused by the slipping of rock on the side of the fissure, probably three miles below the surface.

ENGINEER LEAPS FOR HIS LIFE

(Scripps-McRae Dispatch.)

HARRISBURG, July 15.—The Pennsylvania flyer, east bound, the new 18-hour train between Chicago and New York, struck a wrecked freight train while running at top speed near here early this morning. The freight train had buckled, throwing a car across the passenger track. The flyer struck the car and hurled it from the track. The engineer of the flyer jumped when he saw the obstruction and was severely injured. The engine of the flyer was considerably damaged.

HOOKER CASE DEVELOPS ISSUE BETWEEN LEGISLATURE AND PRESS

Printed Serious Charges but Editors Are Mum

Albany, N. Y., July 15.—Editor-in-Chief Ervin Wardman, of the New York Press, was the storm center in the state legislature. His refusal to give his authority for his expressed belief that members of the legislature had been the subject of improper influences in connection with the trial of the charges against Supreme Court Justice Hooker produced intense excitement, and the question of the disposal of his case has entirely overshadowed in interest here the charges against Justice Hooker. Incidentally the situation has raised far-reaching questions as to the status and powers of the present joint session.

Want Their Accuser to Face Them.

The situation developed unexpectedly out of the desire of members of the legislature to learn who wrote an article in The Press of last Wednesday in which it was asserted that both political pressure and "boodles" were being invoked in behalf of Justice Hooker to prevent his removal from office as a justice of the supreme court. Wardman appeared in person, and declared that the article had appeared during his absence on vacation and he did not know who wrote it. He was instructed to telephone during the recess to his managing editor, Hennessey, and ask him who wrote the article.

POSTOFFICE ROBBER IS WANTED IN INDIANA CITY

Sheriff Comes to Attempt to Secure Harry Emmett--Pinkertons Call Them Bad Ones.

Chief of Police Clegg of Jeffersonville, Ind., is on the way to La Crosse to attempt to secure Harry Emmett, one of the three alleged Stoddard postoffice robbers, with the object of taking him back to that city to answer to charges of safe blowing and intent to kill. As Emmett is now in the hands of the federal authorities it is very improbable that Chief Clegg will be able to take Emmett back to Jeffersonville until the United States court gets through with him.

Chief Clegg writes that Emmett was arrested in Jeffersonville in July, 1903, and escaped from jail the following September by sawing out. Word comes from the Pinkerton detective agency that the three now in jail here are notorious safe robbers and criminals of a dangerous type. Mrs. Cunningham, claiming to be the wife of one of the men, has arrived here from Michigan and is prepared to make a strong fight for the release of her husband. She has engaged Attorney Frank Winter.

THIS SCHOOL BOARD IGNORED THE STATE LAW

Springfield, Ill., July 15.—Charles M. Tinney, state sales agent for the board of prison industry, has filed a complaint with Governor Deneen against the Chicago board of education charging violation of the amended convict labor bill. It is asserted that the school board recently purchased \$45,000 worth of school desks from A. H. Andrews & Co., Chicago, without securing figures from the prison industry board as provided by the new law.

Attorney General Stead has been requested to give an opinion to the governor in the matter. Tinney took up the matter of purchasing supplies with the Chicago board some time ago, but nothing was determined upon. Since then, he says, he has heard nothing from the trustees, but from other sources he learned that it had contracted with Andrews & Co. for the desks.

SECOND CAUSEWAY AND A CARNEGIE LIBRARY PLAN

North Side Gets Bulk of Consider-
ation Before Last Night's Meet-
ing of the Council.

One of the most important meetings of the council held for some months occurred last night, when the aldermen disposed of a large amount of business which has been accumulating in the city clerk's office.

The sum of \$1,000 per year was voted to maintain a Carnegie library on the north side if a \$10,000 donation for the construction of a library can be secured from Mr. Carnegie.

Second Causeway.

The council adopted the report of the special street improvement committee asking the city engineer to prepare plans and specifications for the construction of a second causeway between the north and south sides.

Wants Billposting Trust.

An ordinance providing for the licensing of bill posters in the city at \$25 per year was given its first and second readings. It requires that each licensed bill poster wear a badge and be required to furnish a bond of \$1,000 to operate in the city. The measure is designed by the local billposter to make his business "exclusive."

New Bridge.

A bridge was ordered constructed over Swift creek to cost \$800 and the work will be done by contract.

Force Burlington.

A resolution was passed notifying the Burlington officials that a roadway must be dug through the company's filled in trestle on St. Andrew's

street to permit the passage of teams. The company will be given 90 days to do the work. It was stated in the meeting that the company promised to make this improvement ten years ago.

Mrs. Lexius Gets \$500.

Catherine Lexius, widow of the late Henry Lexius, will receive \$500 in settlement of her judgment of \$600 against the city, for an injury sustained by her husband in falling on a defective sidewalk a year or more before his death in a runaway accident at Milwaukee.

The council voted \$350 for the purchase of an adding machine for the officials in the city hall.

Want New Car.

A petition was received asking that the street railway company be requested to do away with the "converted horse car" in use on the Market street line and provide a modern car for its patrons.

Road to Build Stock Pens.

An ordinance was introduced giving the Milwaukee railroad company the privilege of establishing extensive stockyards in the eastern part of the north side. This is the forerunner of an extensive plan of the railroad company to make this a big feeding center for stocken route from the west to Chicago. Feeding pens and big yards will be constructed and the improvement will give employment to a number of men.

ALD. SCHULTZ, HE FELL INTO A PUDDLE

Alderman Schulze fell off a street car while on his way home from a council meeting last Tuesday night and landed in a mud puddle with most distressing results to a nice new light suit of clothes. Last night Alderman Valentine presented the following resolution, which was referred to the fire committee:

"Resolved, That the fire department provide suitable hooks, ropes and other devices with which to hold Ald. Schulze on the street car as he rides home from the council."

DR. JORRIS MAY BE REAPPOINTED TO MEDICAL BOARD

SESSION ENDS AT MADISON YESTERDAY

Dr. A. U. Jorris of this city has returned from Madison where he attended the annual meeting and examination of the state board of medical examiners.

It will be two weeks or more before the eighty-one young men who took the state medical examination will know whether they will be allowed to practice in Wisconsin. The state board finished its work yesterday and distributed the papers among its different members for markings.

The terms of four members of the board have expired and it was expected that the governor would announce the appointment of their successors when he was in Madison yesterday, but he did not do so. Two of those whose terms have expired cannot be reappointed, as they have served two consecutive terms, the limit under the present law. They are Dr. J. R. Currens of Two Rivers and Dr. Filip Forsbeck of Milwaukee, president and secretary respectively of the board.

The two others whose terms have expired are Drs. J. V. Stevens of Jefferson and Dr. A. U. Jorris of La Crosse. It is reported that Dr. P. H. McGovern of Milwaukee will be appointed to succeed Dr. Forsbeck.

FARMER EMPOVER- ISHED BY DESTRU- CTIVE STORM

Farmers in the vicinity of Homer, south of here, are practically paupers as the result of a destructive hail storm which struck that vicinity a few days ago. The Viroqua Republican says:

"Reports indicate that the destruction of crops was practically complete and that the farmers have lost their all. Trees were denuded of leaves and bark; all there is left of the waving fields of grain is short stalks, bleached white by the sun. The corn is gone. There will be no hay cut. The pastures are gone. Never did hail in that neighborhood accomplished more complete destruction."

DE SOTO MAN FINDS PEARL WORTH \$100

Fred Loucks, a resident of DeSoto who has engaged in clam fishing during the present season, has discovered a pearl which is valued at \$100. The gem was sold to a Prairie du Chien pearl buyer for that amount. Reports from down the river indicate that a large number of small pearls are being found this summer, though no real large ones have been found.

Breaks Collar Bone Playing Baseball

Art. Harkness, short stop for the Caledonia Maroons, broke his collar bone while playing ball at Spring Grove. He made a three base hit when up to bat and in running the bases his toe caught the first bag and he stumbled, striking the ground heavily on his head and shoulder. By a supreme effort he succeeded reaching second base before collapsing. He was given medical attention at Spring Grove.

DREW FATAL BLACK BALL; IS NOW A CORPSE

MARINETTE, Wis., July 15.—

Friends of Victor von Task of this city, who disappeared July 4, have received a letter signed by the missing man which says that he drew the black ball in a duel by lots with a German army officer and that he will be found dead as a result.

Von Task, who is a young man, was a bookkeeper at the Menominee, Mich., Electrical works. According to the letter his death would result from a dispute of several years ago while he was a German army officer.

A duel was proposed and then it was agreed that they draw lots as to who should make way with himself. Von Task drew the black ball, which meant his death by his own hand.

The letter is dated July 5 and was written apparently at Green Bay. It is stated that Von Task left Germany, being afraid to carry out his promise. Then, it is declared, either through a sense of honor, or through being hounded or fearing pursuit from his enemy, who knew he was still alive, Von Task was forced to carry out his part of the agreement to die.

A search for Van Task at Green Bay has revealed nothing.

If the finder is honest a want ad. will bring back to you whatever you have lost—and nine out of every ten people are honest in such circumstances.

ISTHMUS CONDITIONS HAVE BEEN EXAGGERATED HE SAYS

SICKNESS IS SELDOM FATAL SAYS CHAIRMAN SHONTS

Plans for the Benefit of the Employees on the Canal Job

Oyster Bay, N. Y., July 15.—Among the visitors to the president were Chairman Shonts and Chief Engineer Stevens, of the Panama canal commission. After a long conference with the president Chairman Shonts talked frankly about the work of the commission and about canal conditions. "Our talk with the president today," said he, "was of a general character about canal matters. The president desired to see Mr. Stevens before we left for the isthmus and to discuss with both of us the progress of the work. Just now we have about 12,000 men at work on the canal. That is about as many as we could employ under the existing conditions.

Work of Organization To Be Done. "We have our executive staff thoroughly organized now, but the organization has not been completed on the isthmus. That is part of the work Mr. Stevens will have to do. His engineering staff must be organized and its work mapped out. We must make arrangements for the housing, feeding and general care of our employees, in itself a great task, and we must complete the sanitary arrangements in the American zone. All this will require time and energy and hard work, but it will be accomplished successfully.

Recreation for the Employees. "I have about concluded arrangements with a man who is to go to the isthmus to arrange for the recreation of the canal employees. We will have reading rooms, amusement halls and all that sort of thing, by means of which the men may pass their idle hours pleasantly and profitably. The sanitary conditions on the isthmus are not so bad as they have been reported to be. A lot of people have become frightened by the yellow fever, but it is not so bad as might be expected.

REPORTS MUCH EXAGGERATED

Facts About the Number of Victims of Yellow Fever.

"In fact thereports from the isthmus regarding health conditions have been grossly exaggerated. Judge Magoon has sent reports that present the exact conditions, and they have been made public precisely as he sent them. He and I agreed before we went to Panama that the exact conditions should be made public, and that agreement has been kept both by him and by me. Out of twenty cases of yellow fever in May we lost only four. The sanitary conditions are being bettered all the time. "My belief is that the actual digging of the canal will have to be done by laborers inured to the tropical climate. That labor we shall be able to get, I believe, without any serious trouble." Asked whether it was his idea to use Chinese labor on the canal to any extent he replied that some Chinese from the rice fields of southern China probably would meet the labor requirements on the isthmus, but he doubted whether the northern Chinese could live and work well in the tropical climate of Panama.

Adverting to the Panama railroad, he said: "We have been devoting a good deal of time recently to the Panama railroad. It is now in excellent condition." Chairman Shonts was asked whether he could say anything regarding the proposed transfer of the isthmian canal commission and its affairs from the war department to the state department. "I think," he replied, "you would better get that information from the president. I can say, however, that no definite decision yet has been reached."

Cut Worms Eat Field of Corn

Grand Rapids, Mich., July 15. — An entire field of young corn was eaten up in a night by cut worms on the farm of L. A. Hubbard, of Plainfield township. At night he noticed the worms working in his corn lot, and the next morning, instead of a green field of the season's second planting Hubbard had practically bare ground. He at once set to work to try to save his other corn fields by plowing furrows around the field, throwing the furrow away from the field, leaving the sharp, perpendicular land side toward the corn. This has proved effective as the worms could not climb the wall. H. R. Farnum, of Sand Lake, president of the Kent County Farmers' institute, visited the Hubbard farm and found that most of the crop had been cut off clear to the surface of the ground.

Old Man Was a Tough One

Arizona, Pa., July 15.—Barnesboro, Cambria county, boasts of a man who is regarded as having more lives than are generally accredited to a cat. He has just come through an ordeal that would kill ninety-nine of a hundred young men of vigor, although he is 76 years old, went through the war, was shot through the body, and has worked hard all his life. Jonathan Nelson is the man physicians regard as a wonder. On May 25, while working on the roof of a house, his foot slipped and he fell twenty-six feet to the ground.

He was picked up for dead. After being taken home he showed signs of life, and an examination of his wounds disclosed that his left hip was dislocated, left ankle out of joint, right wrist broken, five ribs broken, chest bone broken, three teeth knocked out, skull fractured, left collarbone broken and his back badly wrenched. The attending physician said he could not recover, but he proved to be a poor guesser. Nelson now goes out for a walk daily, although he is being held together with splints, adhesive plaster and cotton.

Do you live in a "Homelet?" The want ads. have a peculiar interest to those who dwell in furnished rooms—"homelets"—for it is so easy for these people to move that they will not tolerate small annoyances.

A WORD OF ADVICE

If you would find the paths to health, seek the advice of a reputable physician, who, through scientific research and years of experience, can give the necessary skillful treatment, says Dr. Turbin, the well known specialist of Chicago, to the countless thousands of sufferers in need of medical treatment.

Delay in taking steps to check the progress of disease, until the system is so depleted as to make the trouble chronic, places the case beyond the control of a practitioner who has not made a careful study of modern methods, or had the experience which precludes all doubt of his diagnostic ability and makes him sure of the method of procedure in each and every case.

That Dr. Turbin is qualified in every way to meet these requirements, has been proven by the way in which he has won the esteem and confidence of our people, through the relief he has afforded so many of our friends and neighbors.

The remarkable success which has attended his monthly visits here can be attributed to the skillful and conscientious treatment of his patients and a thorough knowledge of his specialties in chronic diseases.

Consultation and examination are free, and those in need of medical treatment would do well to call and see the doctor when he visits La Crosse Monday, July 17, at Hotel La Crosse.

"Don't cry over spilled milk" was our earliest lesson in stoicism. For instance: If the house you have "had your eye on" was sold yesterday to your neighbor—simply because you had not been reading the real estate ads. lately, and didn't know it was for sale—let the incident instruct you, but not depress you.

CAMERON'S BELLE C WINS RACE IN STRAIGHT HEATS

LA CROSSE HORSE GOES A MILE IN 2:14¹ AND TAKES MONEY.

Foul is Claimed, But Judges Refuse to Allow It.

Bell C, owned by D. J. Cameron of La Crosse, and driven by Higbee, won the first race in straight heats at the West Chicago Driving club track yesterday. Driver Garrity, who held the reins on Mollie S, lodged a claim of foul against the winner, but the judges would not allow it. Garrity claims that he was cut off by Higbee at the far turn on the second lap. The interference unquestionably lost Mollie S the race, as she was only beaten a half length and was coming like a shot, after being last all the way up to the time of the interference.

The track was lightning fast, the weather clear and hot, and the day perfect for racing. The three events of yesterday were hotly contested and the defeat of Mollie S in the first heat was a surprise. Today will wind up the meeting. Summary:

SHOT AT WIFE BE- FORE HE SUI- CIDED.

BRODHEAD, Wis., July 15.—L.

Enzor shot himself yesterday as a result of family troubles. Enzor and his wife went to the house of Charles Benscoter. Enzor said, "Charlie, we have come to have you settle our difficulties," and as Mr. Benscoter was about to answer, Mrs. Enzor said, "I have none to settle." Enzor then drew a revolver and Mrs. Benscoter screamed and jumped behind Mr. Benscoter. When Benscoter turned around Enzor was in front of him trying to shoot Mrs. Enzor. Benscoter had a club in his hand, but could not use it effectively because Mrs. Enzor clung to his arms for protection. He did hit Enzor twice, however, and partially stunned him. Enzor fired twice, one bullet going wild and the other just passed Mr. Benscoter's shoulder and lodged in the side of the house. Mr. Benscoter's shirt sleeve was powder burned the shot was so close.

Meanwhile Mrs. Enzor ran across the road into Abe Evans house. Enzor followed, Mrs. Enzor ran upstairs, but Enzor passed through the house out to the back yard and came around in front where he raised the revolver to his head saying to Mr. Evans, "This ends it." He pulled the trigger, but the first cartridge failed to explode. He pulled it a second time and the bullet entered his head just back of the right ear and passed out behind the left ear, killing him instantly.

LA CROSSE WINS THE LAST OF WAUSAU SERIES IN A "WALK."

La Crosse took another fall out of Wausau yesterday with the score of 6 to 1, in the presence of one of the largest week day crowds seen on the local diamond during the season. The game was won in the first inning when with three hits, a pair of bases on balls aided by errors on the other side the locals got in five runs. This took considerable of the ginger out of the visitors, but nevertheless they took a good brace and did some really meritorious work during the balance of the game.

Jones occupied the box for the locals and allowed but six hits. He had good control at all times and showed fine head work.

"Lefty" Heinks of Young Ameri-

ca, Minn., has been signed by Manager Hawley and will be given a chance in the box during the Freeport series.

The score by innings yesterday was as follows:

Green Bay1 1 1 1 1 0 0 0 4	8

Batteries—Easton and Karnell; Flynn, Stremmel and Connor.

Auto Owners Want Central Fire Station for Garage; Offer Eight Thousand

Indications are that La Crosse will soon have an automobile garage located in the building now used as central fire station, and a new fire station located on Sixth street adjoining the city hall and fronting on two streets.

The project developed in the council last night when Alderman Bachelier introduced a communication from F. P. Hixon in which an offer of \$8,000 is made for the fire station building. The city a short time ago refused \$6,000 for the property, but this last offer comes so near the real

value of the station that aldermen favor embracing the opportunity to secure a new station house.

Alderman Bachelier has secured an option on the Taylor property just north of the city hall and it is planned to buy this as soon as the council takes proper proceedings. The property can be secured for \$5,000 and thus there will be \$3,000 left to apply on the new structure to be erected there.

The old fire station will be used as a storage place for automobiles of the city.

The First Regiment Breaks Camp to Make Clear For the Second.

CAMP DOUGLAS, Wis., July 15.—The city of white tents wherein the First Regiment has dwelt for the past week, has disappeared, and in its place is a level expanse of turf; clean as a lawn, a little foot worn, but otherwise showing no trace of having been for a week the camping ground of 800 men—the place where they lived, worked, played, slept, ate and did their cooking. A picnic party of a

dozen ladies and gentlemen have left behind them ten times as much refuse as can be found on the reservation where 800 soldiers have spent a week. That's what military "polishing" and sanitation can accomplish. One can hardly credit it until it is demonstrated by ocular evidence, but it is out of the many interesting lessons brought home to those who have personal knowledge of the Wisconsin Na-

tional guard. It ought to be known to more.

Men Quick and Quiet.

There was no military duty in the camp yesterday other than breaking cantonments and marching away to entrain. Immediately after mess, the preparations for moving out began. The officers' baggage, quartermaster, commissary and company supplies were carefully packed and piled convenient for removal. It was astonishing to see how little it was for the amount of comfort, convenience and efficiency it held for the hundreds of men concerned.

The men made up their blanket rolls, stacked their arms and equipment in the company streets, and then with quiet celerity swarmed at the long line of tents. There was no noise, no running about and confusion of tongues. Only a few quiet, crisp orders, much intelligent, deft handed work, and as one looked, wondering, the tented city disappeared. The tents were neatly rolled and tied; the wooden tent holders stacked in orderly piles, and the men were formed in companies in their company streets, with their equipment upon them, their rifles in hand, awaiting the signal to move out and board their troop trains. It was great work—possible for none but well drilled soldiers—but just the every day thing for the Wisconsin National guard; for whose training in this and other useful things does the annual encampment exist.

MAYVILLE EDITORS HELD IN CON- TEMPT.

JUNEAU, Wis., July 15.—A great deal of interest prevails over contempt proceedings which have been instituted against Henry Spiering and Jacob Mueller, respectively, publishers of the News and Pioneer, Mayville newspapers. The proceedings grew out of articles published in the papers, relative to the appointment of drainage commissioners, to superintend the drainage of the Horicon marsh. Yesterday in court Judge Dick stated that in his opinion the articles amounted to contempt, and in the absence of the district attorney, J. C. Healey of Beaver Dam has been appointed to take charge of the proceedings and see that the newspaper men be given a chance to show cause why they should not be punished for contempt. The court adjourned until July 25, and it is very probable that the matter will be taken up on that day.

STEAMER CLYDE CAPSIZED IN STORM

The steamer Clyde was capsized this afternoon in a wind storm which struck the Mississippi river above Winona just ahead of the rain. The steamer was at Minneska, near the West Newton rafting works at the time, but whether out in the river or at her moorings the brief message received from Minneska late this afternoon did not state. No one was drowned according to the report.

OLD RESIDENT DIES ON HER BIRTHDAY

Mrs. Catherine McCauley, who has resided in La Crosse for many years, died Saturday night on her birthday after an illness extending over six years. Deceased was born in Ireland 65 years ago and came to this country when a young woman. The end came at her home, 1007 Pine street. Deceased leaves a daughter, Miss Catherine, and two sons, James and Dennis, all residents of this city.

The funeral was held this morning at 9 o'clock from St. Mary's church and interment was made in the Catholic cemetery.

A. E. Baumgarten, transfer clerk of the local postoffice is spending his vacation in Milwaukee. R. G. Davis of Galesville is taking his place.

Oscar Lienlokken, night editor of the Pioneer Press, is in the city spending his vacation with relatives.

ROBERT HYDE IN GRAIN CO.

One of the Incorporators of Concern With \$100,000 Capital

Articles of incorporation have been filed with the secretary of state and register of deeds of the Pierce-Stephenson Elevator company, which is empowered under the state laws to transact a general grain and warehouse business. The firm, which will hold its first annual meeting August 8, will have offices in this city and also at Dexter, Minn., where Messrs. Pierce and Stephenson are already located in the grain business.

This firm has purchased of the S. Y. Hyde Elevator company about 15 of its string of elevators. Interested in the new firm are C. E. Bennett and R. S. Hyde, both of this city, and connected with the Hyde Elevator company. The capital stock of the company is placed at \$100,000.

KING COMMANDERSON DEATH OF GEN. BLACKMAR

(Scripps-McRae Dispatch.) WASHINGTON, July 17.—John B. King, of Baltimore, senior vice commander of the G. A. R., becomes commander-in-chief by reason of the death of General Blackmar at Boise, Idaho, yesterday.

Remains in State. BOISE, Idaho, July 17.—Sheridan Post, G. A. R., has taken charge of the remains of Gen. Blackmar. The body was embalmed and placed in a metallic casket and conveyed to the Grand Army hall where it laid in state until 3 o'clock this afternoon. Mrs. Blackmar will leave with the remains for Boston this evening.

POLICE TAKEN OFF WAGONS IN CHICAGO

TWO BOYS NEARLY DROWN AND BATH MAY BE CLOSED

Alderman Keller Says Ironclad Rules Will be Followed, Else the Institution Will Quit.

As a result of the narrow escape of two boys from drowning at the public bath yesterday afternoon, closely following upon the rescue of the little Daniels boy two days previously, members of the common council will see that the bath is closed down permanently unless certain rules which are about to be laid down are observed to the letter by the patrons of the bath.

Two fatalities were narrowly averted at the bath yesterday afternoon. Two boys swimming outside of the bath limits got in a scuffle with the result that one of them swallowed a quantity of river water, became helpless and would have gone down had not willing hands taken him to shore. Another boy, who was also swimming outside of the bath limits, dove off the upper end of the boom and was carried under the affair by the current, which is very strong during this high water. He also swallowed a quantity of water and was nearly unconscious when he came up after being carried

under the boom. One of the bath assistants pulled him out. "Instructor Drews is to be given another assistant, the bath house committee is to meet and compile iron clad rules for the protection of bathers at the bath, and the instructor and his assistant will see that they are obeyed," said Alderman Keller, father of the public bath, this morning. "If these rules are not obeyed the offenders will be blacklisted and cut off from all privileges of the bath, and wholesale violations of the orders will result in the bath being closed. All of the accidents at the bath have been caused by the carelessness of bathers in failing to heed the instructions of the attendants. Heretofore we have allowed the instructor to lay down what rules he deemed necessary for safeguarding the lives of the bath patrons. Now we will lay down some rules of our own and see that they are enforced or close the bath. One of the principal rules will be to allow no one outside of the boom marking the bath limits."

Connors Stole His Pal's Clothes

A man who gave the name of Will Connors is locked up in central police station charged with wholesale thefts about town of various articles of clothing and merchandise. He was caught in the act of stealing a lantern from the wheel of Charles Hoeschler, which was standing in front of his store at Main and Fifth streets. The cry of "Thief, stop thief!" started a crowd in pursuit of the young man, but he escaped by jumping fences and dodging through yards back of the theatre. Later, however, he was picked up by Patrolman Dugan and taken to the station. A varied assortment of articles was found in his possession. Since his confinement at the station the police have discovered that he robbed his room-mate just a few hours before stealing the bicycle lantern, taking a quantity of clothes and other articles. He may be arraigned before Judge Hunt late this afternoon.

TAKES RAP AT ORDINANCE TO KILL COMPETITION

SOME FACTS TO PREVENT ABUSES

La Crosse, Wis., July 17, 1905. Editor Tribune:

Dear Sir: Pardon my intrusion in calling your attention to an interview given by Mr. O. J. Oyen in the Morning Chronicle of Sunday, July 16, in which that worthy philanthropist sallies forth with remarks as to an ordinance which he has recently had introduced in the council of this city for the purpose of preventing abuses. I wish to state that the ordinance which Mr. Oyen has asked to be passed is in effect the same as the "Associated Bill Posters and Distributors of the United States and Canada," commonly known as the "Bill Posters' Trust," has been uniformly endeavoring to have passed in every city in the United States and is solely to drive out such honest competition as cannot afford to pay a license fee and furnish a bond; we have some good men here in La Crosse beside Mr. Oyen and Mr. Aug. Erickson, who are making an honest living in the distributing line and some few who are crippled and aged to whom this business is an opportunity to live; they do not gather their dollars by the thousand or hundreds, of course, but this is the very reason the city of La Crosse should see that no grasping monopolist crowd out these dependents on that or any other line.

It sounds most beautiful to hear a public spirited citizen come forth with a panacea for our ills but I wish to call your attention to the fact that the only recent instance for correcting abuse occurred on Jan. 2, 1905, when you will note by the "Tribune" report Chief of Police Byrne "Confiscated a lot of malicious and obscene literature," which was being distributed by employees of the firm of Aug. Erickson & Co. (of which Mr. O. J. Oyen is and was at that time a half-partner). I have never heard of any other distributing firm or person in any way disturbing the peace; and it seems so good of the firm to introduce an ordinance to "correct abuses," who has been the only one to create them.

I do, however, wish to call attention to the need of some real protection to the city from bill boards, which are at present somewhat old and dilapidated, and are liable to blow down in any storm on some pedestrian's head, either injuring or killing, and the city will be liable probably to pay heavy damages for the same. Last spring I had an ordinance handed in by Ald. Keller, which seems to have gone to sleep at or about the

Sunday was the hottest day of the year. The hot wave of Saturday was intensified yesterday and the mercury clambered until it reached the highest point of the season, the maximum being 95 degrees from 3 to 5 o'clock. This was several degrees above that previously recorded for the summer.

No Breeze. There was not a breath of air stirring during the day, which intensified the situation. While the government figures give the maximum temperature as 95 degrees, many street thermometers registered 100 degrees and it is claimed that it was at least 5 degrees hotter about the brick paved streets than at the top of the federal building where the government weather bureau apparatus is located.

104 Degrees in 1901. Weather Observer Oberholzer said today that the temperature came nowhere near the record for the day. In 1901 a temperature of 104 degrees was registered on July 15th.

Prostrations. A number of prostrations were reported, but none of a serious nature. Bodily exertion was irksome, and everybody passed the day in the most comfortable way possible. The heat began early and held on to the end. At 7 o'clock when the men of family sauntered out for their morning papers, they did so waving palm leaf fans and returned carrying their coats and mopping their heated brows. The church congregations were the smallest of the season.

Crowds Seek Cool Places. The populace sought the cool places they could find. Pettibone and Myrick parks were crowded. All day downtown streets were practically deserted, the atmosphere along the pavements and in exposed places being oppressive. In exposed places, surface thermometers registered 100 at 3 o'clock, too much for a sane man. After sundown the streets gradually filled with a leisurely Sunday crowd though Main street was almost deserted during the heat of the day.

FERRARI PAID TWO LICENSES IN STATE

When Col. Ferrari, the carnival king, left La Crosse he was indignant, because he was forced to pay his state license twice.

Ferrari paid the license in Milwaukee and upon arrival here was asked to pay his license by Collector L. Kleeber. Kleeber wrote to Madison when Ferrari claimed to have paid his license, and found that the license payment was not credited. Therefore the showman was forced to pay again.

He has been busy since then trying to discover the identity of the official to whom he paid the first fee.

REPORT CYCLONE NORTH

Mississippi Valley is Said to be Swept by Destructive Blow

Reports this afternoon are that a cyclone swept the Mississippi valley north of here and that a large amount of damage was done near Minneapolis by cyclonic winds.

A smart thunder storm blown up by a cooling wind, caused a sheer drop within a few minutes of 22 degrees in the temperature shortly after noon today, and brought relief to thousands of people in the city and vicinity who were suffering intensely from the heat.

The thermometer had steadily climbed during the day until at noon it registered 92 degrees at the government weather bureau station, with prospects of equaling if not exceeding yesterday's high mark, when suddenly the western sky clouded up and within 20 minutes the storm was upon the city. So hot was the brick pavement down town that the first drops sizzled into steam on the streets. Within half an hour the temperature had dropped from 92 to 70 and citizens got a new lease on life.

Reports received here this afternoon are to the effect that the storm up through Minnesota was more severe than here and small cyclones are reported in places. In St. Paul and Minneapolis the storm was reported to be very severe.

Fight at Sakhalin Island Given Japs a Victory.

St. Petersburg, July 17.—Japanese warships have appeared to the northward of the island of Sakhalin and are presumably meditating a descent on the island.

Moscow, July 17.—The fighting organization of the social revolutionists has issued a proclamation announcing that the death sentence pronounced against Major General Count Shouvaloff, chief of police here, who was assassinated July 11, was executed by one of its members "on account of the black and cruel activity of this satrap at Odessa [where Count Shouvaloff was formerly prefect], and his subsequent return to the active service of reaction at the call of Trepoff, the pan-Russian dictator, to stamp out the revolution in Moscow." The proclamation concludes: "Let this execution serve as a joyful signal to the Russian millions in revolt and as the death knell of the dying autocracy. Let it remind all dogs of the autocracy of national justice."

Fight on Sakhalin Island.
Tokio, July 17.—It is officially announced that the Russian centerholding Dalnina and vicinity was attacked July 11 and offered stubborn resistance. The attack was renewed at dawn of July 12, when the Japanese dislodged the Russians, driving them in the direction of Maika. This victory ensures complete occupation of South Sakhalin by the Japanese. Eighty prisoners were taken by the Japanese, among whom was Lieutenant Maximova. Four field pieces, one machine gun and ammunition warehouses were captured. The Japanese loss was about seventy men killed or wounded. The Russians lost 100 men.

Military Situation in Manchuria.
Tokio, July 17.—Reliable information has been received here that the Russian forces in northern Korea have gradually been driven northward since last month and now hold only two positions south of the Tumen river. The latest information from the front, however, reports the advance south of a large force from Vladivostok, but it is believed the Russians will halt at Norkersk, north of the Tumen, and concentrate their forces to make a resolute stand there against the Japanese advance.

office of our city attorney, Mr. Paul W. Mahoney, and I have not been able to find aught of it since.

The ordinance was just and equitable to all persons who may go into the bill posting or sign painting business and gave a protection to the city in case of accidents emanating from the bill posting privileges. It required a bond of fifty (\$50.00) dollars for every lineal foot of board erected in close proximity of sidewalks on our thoroughfares and the replacing of the present inflammable dry wooden boards with boards of fire-proof construction, which would also materially lessen the property risks in places where boards are located. I wish to state I am in no way interested in the bill posting and distributing business myself.

SKAAR GETS LETTER TELLING OF DYNAMITE

PLACED UNDER BRIDGES BY THE NORWEGIANS

O. R. Skaar has received a number of letters recently from relatives and intimate friends who are pretty close to the government in Norway advising him that prospects of a war between Norway and Sweden are pretty slim. All his advice is to the effect that King Oscar seems pretty well satisfied to leave the seceding country alone to govern itself, there being nothing in sight to be gained by commencing a war. Mr. Skaar has been informed in these letters that every bridge leading into Norway from Sweden has mines beneath it to destroy the structure and annihilate the Swedish army if troops were sent by King Oscar to invade the country. The Norwegian army, too, is in good shape just at present. The government of Norway feels pretty secure in its position.

OVER THE OREGON TRAIL

How Ezra Meeker Will Travel From Portland to Iowa.

NOVEL TRIP IN PRAIRIE SCHOONER

Pioneer Who Crossed the Continent Half a Century Ago Will Return by the Same Route—His Outfit Is Nearly Like the One He Had Then—Will Take Careful Notes.

"Gee, Twist! Come on, Stub! Git up!" cried Ezra Meeker, pioneer, historian and good old fashioned citizen, as he touched his off ox with a switch and turned the team into one of the gates of the Lewis and Clark exposition, writes the Portland (Ore.) correspondent of the Boston Herald. Mr. Meeker is on his way back east, but he scorns the Pullman; he proposes to travel the entire distance to Iowa along the old ox wagon trail over which he came to the Oregon country fifty-three years ago.

His outfit is as nearly as possible an exact reproduction of the one in which he and his young bride made the trip across the plains in 1852. There is a "prairie schooner," tar bucket and all, and a dog running underneath the rear axle which probably is a direct descendant of the Iowa dog that trotted all the way to Oregon in the pioneer days. The oxen, Stub and Twist, are pretty much like Buck and Dandy, Mr. Meeker's 1852 team, though the pioneer says they are not quite such a good team.

Ezra Meeker today is a sturdy old gentleman, with bushy white hair and a gray beard. He is a small man, light of build, and he wears overalls and a soft hat. His manner is unostentatious, and his courtesy is of the old time kind. He tells his story modestly. Though Mr. Meeker does not say so, others say that the little old man was one of the few white men in the early days who won the Indians' confidence, and that this enabled him to employ them in his hop fields to such profit that when the hop lice pest wiped out his earnings in the early nineties he had raised for the export trade hops that had brought him \$500,000. It was of the early days that Mr. Meeker talked as he sat on a cracker box in his tent.

"I was reared in Indianapolis and was married there in 1851," he said. "Shortly after our marriage my wife and I started west in search of land. We spent the winter at Eddyville, Ia., and the winter was so cold that we decided to move to Oregon, so we started in the spring of 1852 with the same sort of an outfit as I have with me now. We reached Portland in the fall and spent the winter there, and in the spring we moved on to Pierce county, Wash., where I have lived ever since. I guess that's about all."

And yet Ezra Meeker has written a big book of more than 500 pages which he calls "Pioneer Reminiscences of Puget Sound—the Tragedy of Leschi." The book contains a host of incidents which portray vividly the life of the time, and the mention of it recalled one of them to the author as he sat in his pioneer camp amid the splendors of 1905 and the exposition.

"I saw in a paper awhile ago," he said, "that the number of people who passed over the Oregon trail in 1852 and 1853 was 2,500. Now, you know, that can't be true. The estimate is far too low. The trail was blocked a good part of the way with outfits, and the suffering was awful, but there must have been at least 25,000 who got through."

"You know a cholera broke out among the emigrants, and there were hundreds who died from it. At one place we counted fifty-one graves, all made within a week. Our party escaped the cholera and got through without losing an animal or a piece of baggage."

"I remember how glad we were when we got to The Dalles of the Columbia, for we thought that then our troubles were ended. We piled our baggage on a big flatboat, and there was hardly any room for passengers, but we sat around on the baggage and were happy. One day as we were going through a gorge with the mountains rising high on both sides some one started singing softly 'Home, Sweet Home.' Others took up the song, and we all sang one verse. Then we started the second, but at the close of the second line every one stopped suddenly and we all cried like babies, every one of us."

Mr. Meeker expects to continue his journey some time this month and thinks he can reach Omaha before cold weather strikes him. He has with him a hired man, who takes care of the oxen, and a photographer to take pictures of the landmarks, with their wives to do the cooking. Mr. Meeker intends to take careful notes of the trail and to follow it more closely than any one else ever has. He says that he will transcribe every one of the hundreds of names carved or written on Independence rock, the most famous landmark of the trail.

MUST OPEN BRIDGE FOR LAUNCH TO PASS

The stage of water is still very high. The Black river bridge was opened Saturday afternoon to allow a launch to pass through.

ALFALFA BY IRRIGATION YELLOWSTONE VALLEY, MONTANA.

There are more than 60,000 acres of land watered by irrigation ditches and peculiarly adapted to the raising of alfalfa, for sale in the Yellowstone valley west of Billings, Mont.

The soil varies from gumbo to sandy loam, and alfalfa does well on all of it. The following figures show what alfalfa will do on irrigated, as compared with common hay on unirrigated, land.

One acre sown to alfalfa and irrigated, will produce 10,000 pounds of hay.

One acre in enclosed pasture, 500 pounds.

One acre of range averages 250 pounds. Or again:

One acre of irrigated alfalfa will feed one steer 400 days.

One acre of enclosed pasture will feed one steer 20 days.

One acre of average range will feed one steer 10 days.

Or putting it in the form of sheep, it will show as follows:

160 acres of irrigated alfalfa will maintain 1600 sheep one year.

160 acres of enclosed pasture will maintain 80 sheep one year.

And 160 acres of range will maintain 40 sheep one year.

LAWSON SEES OUR STREETS RUNNING RED WITH BLOOD

MUST CRUSH THE SYSTEM TO SAVE LIVES OF OUR CHILDREN

Bryan Could Gain the White House With Knowledge of Fin

Chicago, July 17.—"Days of gloom and streets running red with blood; days of greater alarm than fell upon St. Petersburg during last winter's reign of terror—these are in store for the American people unless they open their eyes, rise in their might and crush with one blow this monster, 'the system,' that is thriving at their expense." With these words Thomas W. Lawson closed his speech at the banquet given in his honor by the Jefferson club. He had written an address along with a criticism of municipal ownership, but finding that childish subject to criticize in that club he set his written address aside.

Nominates Johnson for the Presidency.

Lawson was given a rousing reception when he was introduced, and the applause continued for nearly five minutes. During his speech he dropped frenzied finance long enough to make a nomination for the presidency for the campaign of 1908. "I think I discovered real presidential timber in the far northwest in Governor Johnson, of Minnesota," he said. "I think he is just about the man who could sweep this country as the Democratic nominee for president next campaign unless the present president should change his mind and take the field again."

Has Observers in the Enemy's Ranks.

One of the interesting things said by Lawson was that since he had called for insurance policies he had received 14,000 of them, with a total value of \$40,000,000. Among the last I received were two from the governor of Louisiana," said the speaker. He also asserted he received as many as twenty-five communications in one day from highly paid insurance officials, "who keep me completely informed of all insurance matters and in the belief that I will not betray them furnish me with all of my material about the juggling operations of the great insurance companies."

BRYAN ON THE WRONG TRACK

Could Land Himself in the White House—Municipal Ownership.

Referring to William J. Bryan, Lawson said: "Bryan has great ability and it is too bad he got started on the wrong track. He would need only 25 per cent. of my knowledge of financial matters to land himself in the White House with a rush if he preached it right—and he would." Other remarks were: "This is the age of dollars, and no matter what party is in power the dollar will direct affairs." "To have \$500,000,000 is to have unlimited power." "I challenged the 'system' to follow me west and it did not dare." "I am in a fight that ought to touch the heart of any man who has an ounce of red blood in his make-up."

Speaking of municipal ownership of public utilities Lawson said: "You think, some of you, that the solution of our troubles is in municipal and federal ownership of our public utilities. I hate to oppose your optimistic impression that in the people's administration lies the panacea of our deep troubles. Municipal ownership is a will-o'-the-wisp. You are about to try an experiment in municipal ownership in Chicago."

"If the 'system' is able to corrupt the lawmakers and law administrators who have all these years connived at the wretched management of the Chicago railways what possible hope can there be of relief when the roads are actually under the management of city officials elected in the same way as the lawmakers and administrators whose weakness and wickedness have been so manifest?"

"Successful administration of public utilities is incompatible with political considerations, and if tried in this country is bound to prove a disappointment and a failure. If it were possible to bring it about I believe it would set back the relief which the people must have, at least 100 years."

OLD YACHT BUILDER DIES

PEWAUKEE, Wis., July 17.—A. La Chappelle, the boat builder who designed and constructed some of the fastest yachts ever sailed on Pewaukee lake, died suddenly of hemorrhage

of the brain. He was 64 years old and was formerly a boat builder at Detroit and Waukegan. As the interest in the sport grew he came to Pewaukee five years ago and his latest success was the Albatross, built for W. H. Meyers. He had been in ill health for the last few days, but no serious results were anticipated.

THIEVES TEAR DIAMONDS FROM WOMAN'S EAR

New York, July 17.—Putting their victim under the influence of chloroform while she slept two burglars secured \$1,000 worth of diamonds from Mrs. Bertha Cohn, in her home on Fifth avenue. So skillfully did the burglars operate that Mrs. Cohn's mother, in an adjoining room, heard no noise, and the victim herself had no knowledge of the robbery until the pain in her lacerated ears, from which a pair of diamond earrings had been snatched, brought her to consciousness.

Her hands and feet were wound to the bed and two diamond rings were missing from her left hand. Her screams furnished her mother with the first warning of the robbery. Then it was discovered that a fire had been started in a wardrobe. This was extinguished by firemen.

Too Long to Wait.

Sluder Killed Cardwell

Brazil, Ind., July 17.—J. G. Gillman, who was arrested in Hymers, suspected of being implicated in the assassination of Ralston Cardwell at Coalmont on July 9, has made a confession in which he charges Henry Sluder with killing Cardwell. Gillman said that he and Sluder, with another man whose name he refused to divulge, went to Cardwell's home.

Gillman stated that when Cardwell saw the men he picked up a club and struck at Sluder, who fired the shot which killed Cardwell. Sluder is in jail here, but has refused to make a statement.

Woman Slaps Face Of Impudent Masher

New York, July 17.—A six months' sentence to prison for a passing street flirtation with a married woman was imposed on Benjamin F. Smith, who came here from St. Louis, by Magistrate Steinert. Late in the evening Mrs. Grace M. Gamble, who is handsome and dresses stylishly, was waiting for her husband, a Brooklyn business man, at the Madison avenue and Forty-second street subway entrance. Smith was passing and spoke to her.

Mrs. Gamble resented this, struck Smith in the face, and caused his arrest. In court, although Mrs. Gamble herself requested leniency to the prisoner, the magistrate imposed sentence and at the same time invited other women who suffer from "mashers" to act as Mrs. Gamble did.

SEVEN-LEAGUE BOOTS TO RENT!

Of course the Seven-League Boots must be classed among the "never-were-things" They are on the same shelf with Carlyle's "Time-annihilating hat."

But they stood for something very real and very important—the hope of the race that, sometime, in some way, delays would cease, hamperings and shacklings of human efforts to accomplish things would grow less—that a straight road would be found on which to travel to the thing we need and want.

And so the quaint fancy of the Seven-League Boots came to be little less than a prophecy of modern want advertising. And a few lines of type furnish nowadays, a sort of magic foot-gear for the advertiser—affording him seven-league strides in the search for what he wants.

If you want what you want now—if time is important—if a tenant in your house is worth two prospective ones, and a cook in the kitchen is better than a promise of one next week—then it will pay you to rent, for a day or two, THE LA CROSSE TRIBUNE'S

UNDERSTANDING THE SOUTHEASTERN.

Last week, by courtesy of Mr. Cargill, the newspaper men of La Crosse were invited to attend an excursion over the new Viroqua inter-urban. The attendance was large and the excursionists were accorded royal treatment; it was a very pleasant affair.

However, the social side of the event is of small importance compared to its value in educating the writers of the city concerning this new road. We have all said and printed much about the road; we have aired our opinions, and have for the most part boosted it along. But beyond the general knowledge that all railroads are business-makers, we knew practically nothing about the Southeastern. And no wonder, therefore, that we have all occasionally "written through our hats."

That condition no longer hampers our disciples of the quill. Every man who took part in that excursion has a full understanding of the road and its possibilities; its natural resources were pointed out as the train glided along the line, and much enthusiasm was manifested over the discovery that the district pierced by the road is indeed a rich and prosperous area. The Southeastern has eliminated many miles and many hours between here and Viroqua, and has made La Crosse Viroqua's market for the first time. It has brought us closer by a great distance to a productive country, and it will materially increase the product of that entire territory by furnishing it a near and ready market.

So the Southeastern is a road of great present importance to La Crosse, because it gives patronage to the La Crosse markets and gives markets to territory contiguous to La Crosse but heretofore isolated from it. It will become more important still at some future date. For this road has not reached its terminal; it will stretch out as time passes and traffic increases, and will eventually become an electric road with trains every hour, or will become the pathway to La Crosse for some great trunk line. In either case it will do its part in building up our to-be great city of La Crosse.

The road will be sure to help this city, and everyone of you who live in this city; on your part, be sure that you help the road in ever possible way.

WE CAN GET THE SMALL FACTORIES.

With the re-establishment of competition in the lighting and power business here, a new field of activity presents itself to the La Crosse Progressive Association.

Cheap light and power—and these we will have, as is already demonstrated—offer remarkable advantages to SMALL FACTORIES. These little manufacturing plants that start modestly and grow by virtue of energy and enterprise, keep pace with the town and eventually make the big city. They do not so often seek alms as do larger concerns that expect to impress cities with their established value and thereby obtain bonuses for locating in a community. The small concern realizes that it has no argument to offer in favor of a bonus. Hence it seeks ADVANTAGEOUS CONDITIONS.

Small factories can find advantageous conditions here. CHEAP LIGHT is a great advantage; CHEAP POWER is a great advantage. We now have both of these, and many others. An appreciation of this fact will bring many small manufacturers to La Crosse.

How shall we get them interested?

By ADVERTISING. Let the Progressive Association take this task upon itself. It will cost something, but not so much but what we can make it. The Association cannot raise large sums for bonuses; it cannot buy stock in every Tom-Dick-and-Harry concern that comes along. But it CAN advertise La Crosse. For a few hundreds of dollars it can create for La Crosse this reputation:

"Cheapest light in the world.
Cheapest power in the world.
Finest climate in the world.
Most aggressive community in the world.
Lowest death rate in the world.
Excellent railroad facilities.
River traffic cheap.
Low tax rate.
Splendidly paved and built city."

These are a few of the things that can be sent out to make a reputation for La Crosse. They should be revised to fit the facts more exactly, but substantially they may be claimed as belonging to this community. Within a year, by a proper campaign, these things can be made to be accepted as true in every city and town in the country.

If the Progressive Association will tackle this job, The Tribune takes the liberty of promising that the La Crosse Press club will organize a bureau of publicity and will materially aid in disseminating the news that La Crosse is the only city on the map.

GOSSIP FOR THE FANS

A-sweltering, we prayed for rain,
And to our tickled wits
This thought swept all the grandstand
through:
Oh, what a rain of hits!

Oh Mr. Scott, you sure forgot—
Dear Mr. Scott, you were so hot—
You sure forgot, dear Mr. Scott,
Though you were hot, that you
were not
So very much.

The way we swat your curves is not
The proper way, dear Mr. Scott,
To keep a guy from getting hot;
Especially if the guy is not
So very much.

BASE HITS.

Well, any time we don't take that
Freeport swelling down!

We are ready to check that winning
streak that hails from Green Bay.

Konetchy found one of those long
ones that look for a hole in the fence.

My, how do the boys manage to do
it without Ramsey and Hopkins?

The boys tried the single out system
in that first inning.

Look out for us today; we are going
in for four straight. And oh, it
makes those Illinoisans so mad!

We will take twelve strike-outs,
Pink, and call it square.

Negotiating for 4 games
With Freeport, did you say?
Why, man, that deal's already closed;
We're waiting for Green Bay!

Sister Antonia Promoted

FOND DU LAC, Wis., July 17.—

Sister Mary Antonia, for thirty-five years a member of St. Agnes' community, was yesterday elevated to the office of mother superior general to succeed Venerable Mother Mary Agnes Hazotte, who died March 6, 1905. Sister Mary Seraphine was elected assistant superior general, and a board of counselors was elected to be composed of Sister Mary Joseph, Sister Mary Marcella and Sister Mary Louisa. Archbishop S. G. Messmer, the Rev. Father Lorenz of Appleton and the Rev. Father Antoine of Mount Cavalry presided over the deliberations of the community. The Reverend Mother Antonia was a member of the board of counselors for twenty-five years.

BURLINGTON ROAD SUES HI GODDARD FOR \$1.265

Claim they Were Forced to Build New Bridge When He Changed River's Course.

Another damage suit growing out of the famous flood litigation precipitated over the mad pranks played by the La Crosse river in overflowing its banks in the spring, was started in circuit court this morning, when the case of the C. B. & Q. Ry Co. against H. Goddard was called.

This action is brought by the Burlington road to recover \$1,265, the value of a new bridge which the company alleged it was compelled to build through H. Goddard changing the course of the La Crosse river near his farm, half a mile south of Grand Crossing.

The following jury was empaneled to try the case: H. Denniston, G. Redding, W. F. Ruehlman, A. E. Forscher, H. E. Getts, E. J. Nimocks, C. F. Klein, Charles Hodges, Homer Hawkins, W. H. Webb, Frank Sherman, Frank Culver.

The jury and attorneys left at 11 o'clock on a special over the Burlington to view the bridge in question.

GUARD DUTY IS AN HONOR. TROOPS AT CAMP ARE SWELTERING.

CAMP DOUGLAS, July 17.—"None but the best men on guard" is the order in the Second this week. No "rookies" will be cast for guard during the regiment's tour of service here. This is an innovation in the practice of the guard.

Heretofore it has been the custom in all regiments to saddle most of the sentry duty upon the "rookies," or new men in the company, the only time when a real effort was made to put a specially smart and well-seasoned guard on duty being on "Governor's day" of the various regiments. The theory was that it was a good way to break up the "rookies" and hasten their acquisition of "soldiers' wise" by the receipt of such hard knocks as would come their way as a result of blunders when tested by the instructor of the guard. In the meantime the older and better instructed men were kept for other duties.

BROWNS LOST TO WINONA

The Winona baseball team defeated the Browns of La Crosse yesterday afternoon by a score of 6 to 7. The game, which was played in Winona, was according to all accounts, about the warmest contest the fans in that city have been privileged to see in some years, and the result was in doubt until the last inning had been played.

Chicago Wheat.

Chicago, July 17.—The Inter-Ocean says: Wheat in the southern sections of the three northwestern states is now in bloom and might be blighted by excessive heat, as it has to go through its critical time during the next four weeks. This is time enough for the crop to suffer severe loss, but it might come though all right. In spite of its lateness, in case fine weather is enjoyed the northwest is now making the price and no material influence may be looked for from the northwest until the status of the crop in that section has been established.

NEGROES TRY TO FLOCK TO AFRICA

New York, July 17.—Mistaking the swarthy jackies of the Italian cruiser Dogali, lying at the foot of West Thirty-fourth street, for men of their own race negroes started a rumor that the cruiser was a Liberian man-of-war commissioned to take colored refugees to Africa. The rumor spread quickly and hundreds of negroes, excited by the riot of Friday night, swarmed on the pier and were with difficulty held in check by the Italian sentries.

The police hearing that another riot was in progress hurried to the scene, dispersed the crowds and arrested three colored longshoremen. An extra guard of police was stationed at the pier to prevent further trouble.

Because a ship runs around it is not to be inferred that it is a worthless ship; nor, in all cases, that the man at the wheel is an incompetent. In most instances a tug boat will find deep water for the grounded vessel. Because a business venture "runs around" it is not to be inferred that it is a worthless venture; nor that its manager is wholly incompetent. A want ad. will usually bring the financial assistance needed to pull a grounded business venture into safe waters again.

TWENTY-SIX ENTRIES RECEIVED FOR GOLF TOURNAMENT

Tourtellotte Expects Largest Delegation from Milwaukee--Most of the Players Come Thursday

Secretary Augustus Tourtellotte has received 26 entries for the state golf tournament to be held here Thursday, Friday and Saturday of this week. This, however, does not indicate the attendance, as most of the entries will be made the night before the tournament by the secretaries of the clubs, who with their players will arrive at that time.

The entries received thus far are as follows: La Crosse, 10; Janesville, 2; Eau Claire, 9; Oshkosh, 5. The

largest delegation from one city is expected from Milwaukee, which will probably send about 20 of its best players, representing three clubs.

Mr. Tourtellotte said this morning that the links had never been in better condition. The rain has not injured the grounds a particle, the drainage being first class, and a large crew of men is at work cutting the grass and putting the finishing touches on the course. The visitors are assured a delightful time.

RICHMOND SAYS FARMERS, NOT ROCKEFELLERS ARE IT

Trempealeau County Attorney Gives His View on Who Will Control the Wealth of the Country.

There has been a great deal of talk lately about Rockefeller and the trusts getting control of the commerce of the country, but a new idea in this respect was advanced by S. Richmond, the well known Trempealeau county lawyer, who was in the city last week. Mr. Richmond suggests that it may not be long, if present conditions continue, before the farmers will become the real owners of the country. In support of this idea Mr. Richmond said:

"With high prices for farm products in recent years farmers are becoming much more economical than they were years ago when they were largely in debt, farm produce was quoted lower, and they had no snug balance in the bank to be added to from year

to year. No class of people can economize and live so close to the soil as the farmers, and they appear to be doing it at the present time. Farm values along the Trempealeau valley have risen from sixty to two hundred per cent in the past twelve years, and yet in spite of this prosperity farmers are economizing.

"This is not idle talk, but can be confirmed by conversation with merchants and others with whom farmers have dealings. While in the city this week attending court and incidentally visiting the carnival, I had a good opportunity to talk with a number of citizens. They all said that the country people have learned how to economize and are practicing economy at the present time with a vengeance. Many

DIVES FROM HIGHEST TIP OF BRIDGE ON \$10 WAGER

L. Yocham, Unwilling to be "Bluffed" Jumps 70 Feet Into Mississippi at Nine O'clock Last Night.

Unwilling to be bluffed, L. Yocham, as a cableman for the Wisconsin Telephone company, dove from the highest point of the middle span of the wagon bridge at 9 o'clock last night into the dark waters of the Mississippi on a wager of \$10, with another employee of the phone company.

Without the equipment of a bathing suit Yocham partly disrobed on the bridge and climbed hand over hand to the top of the steel frame work, his companion rowed to midstream in a skiff, to pick him up after the dive. A large number of people gathered upon the bridge and watched Yocham

as he stood in the pale moonlight. At the word he stood for a moment, then leaped far out. He struck the water nicely, his clenched fists protecting his head from the shock. The diver "spooned" almost immediately upon striking the water and was on the surface again in an instant.

When seen this morning Yocham said he proposed to make the dive again on Wednesday evening. Though several people have jumped from the bridge, this is believed to be the highest dive ever made, and was as pretty a piece of aquatic work as has been seen here in a long time.

MILWAUKEE TO HAVE A BIG NORTH SIDE FEEDING YARDS

Options on the land chosen for the site of the Milwaukee road stock feeding station in the eastern portion of the north side, near Indian hill, have been secured by Milwaukee officials, and the station will be constructed as soon as possible.

Plans of the officials are to spend between \$10,000 and \$12,000 on the

peys and modern equipment and to have them completed within 30 days. A large crew of workmen will be put on the job and a big new industry for La Crosse will be in running order before the leaves begin to fall. Thousands of head of stock enroute to Chicago from the west will be fed and watered here every month.

of them visited the La Crosse carnival this week, but comparatively few of them made any large purchases while there."

In speaking of crop prospects in the Trempealeau valley Mr. Richmond said that the indications now are for the best yield of grain ever known there. Farmers are predicting twenty-five to forty bushels of wheat on an acre, oats from forty to a hundred bushels, and heavy yields also of rye and barley. Thirty days of good weather will undoubtedly secure to the farmers of the Trempealeau valley the best crops they ever had.

Do you live in a "Homelet?" The want ads. have a peculiar interest to those who dwell in furnished rooms—"homelets"—for it is so easy for these people to move that they will not tolerate small annoyances.

BIRD FAILED TO APPEAR FOR INVESTIGATION

Supt. J. P. Bird of the public schools failed to put in an appearance on the date set for a meeting of the council investigating committee appointed to examine into his qualifications for the superintendency.

According to Alderman Winter a meeting of the committee was called for last Thursday and Mr. Bird was notified three days in advance. On the day when the meeting should have been held Mr. Bird was out carriage riding in the country and sent word that he was out of the city.

Another effort will be made to hold a meeting this week, as soon as Alderman Bacher returns from Clinton, where he went to transact considerable business in connection with the construction of a large building for which he has the contract.

Losing a poor job is the next best thing to quitting it—in either case having quick recourse to the want ads. Shakespeare put it this way: "Some falls are means thee happier to arise."

FORMER SPEAKER HENDERSON LIVES IN THE HEROIC PAST

VICTIM OF PARESIS AND ONLY A SHADOW OF HIS FORMER SELF.

In Weakened State Believes He is at Washington

Dubuque, July 17. — Living over again the days of his glory on the battlefield, sending messages to imaginary secretaries as if he still were one of the chiefs of the nation, Colonel David B. Henderson is existing in an enfeebled mental state that threatens to carry him to the grave. Calling for his

HON. DAVID B. HENDERSON. Musketry and dwelling in fancy amid the battle scenes of forty years ago, the man who has devoted the better part of his life to the service of his country as soldier, statesman and orator, is a pitiful wreck of his former self.

Paresis has set its seal upon him, and a stroke of paralysis, suffered three weeks ago, has brought him to a condition which physicians pronounced hopeless. Not long ago speaker of the national house of representatives and therefore second only to the president of the United States in power, Colonel Henderson now is only the shadow of his former self, haunted by dreams of his former greatness and cherishing an ambition that is doomed to disappointment.

The secret of Colonel Henderson's retirement from the speakership of congress and from public life in 1902 is known at last—a mental difficulty that finally has defeated him after years of heroic suffering that resulted from a wound received in the war of the rebellion.

SHOT IN THE FOOT AT CORINTH
Injury That Resulted in Gradual Loss of One of His Legs.

The battle of Corinth, where he received the wound that cast a shadow over his entire subsequent life, is the event that is uppermost in his thoughts, now confused beyond hope of repair. It was at Corinth that Colonel Henderson, then a captain in an Iowa regiment, received a wound in the foot which resulted in amputation after amputation, until at last almost the whole of one leg had been removed by the surgeons.

Colonel Henderson had been in fair health until he was laid low by the stroke of paralysis. He was able to converse rationally with his family and friends at most times, but since the acute attack he has been incompetent of mind and physically he is barely able to move across his room at the Hotel Julien. The recent stroke affected his right side, and aside from this he suffers constantly from insomnia. Even in his brief periods of sleep he imagines himself either on the battlefield or in the legislative halls at Washington, shouting out his orders and parliamentary rulings with the great voice that time has never weakened.

All Dubuque is sorrowing since the soldier-statesman's condition has become known generally. "The hero of Dubuque" long has been the favorite phrase of Iowans in referring to him. In the days of his mental vigor, though he was handicapped by the loss of his leg, he was an enthusiastic sportsman, and as such, aside from his strong personality, his statesmanship and his power as an orator, he was known not only throughout this state, but through the northwest and in many other sections of the country.

Successful Man Pensions His Booster

Bloomington, Ill., July 17. — For a kindness extended to a poor boy, struggling to secure a foothold in the business world, John H. Richmond, aged 76, of Mackinaw, has been given a pension of \$20 per month to continue until his death. His benefactor is W. C. Dixon, now occupying a responsible position in a railway capacity at Galveston, Tex., with a salary of \$30,000 per annum.

When Dixon was a mere lad he asked Richmond to use his influence to secure him a small position in the depot at Mackinaw. The post was secured and proved the stepping stone to others until he reached the present lofty one. The old man recently received a letter from Dixon recalling the incident, long forgotten to the recipient of the benefaction.

LIEUT. GOVERNOR MAKES \$2,000,000 ON WALL ST. TIP

Grand Rapids, Mich., July 17. — Acting upon tips from Frank C. Andrews from Wall street, it is said, Lieutenant Governor Alex Maitland, of Neagane, not long ago purchased 12,000 acres near the famous Homestead mines in the Old Garden City district and near Deadwood, S. D., and now it is worth at least \$2,000,000 to him. It is said that New York capitalists have offered Maitland that sum for his holdings, but he considers his share in the mine which has been developed worth much more than that sum.

In fact it is believed that a bonanza has been found which will make the lieutenant governor a Croesus. Maitland was one of the prominent public men who assisted Frank C. Andrews to get his release from Jackson prison and permission to go to New York, and his kindness has apparently brought him independent wealth.

ERROR OF DISPATCHER SENDS FIVE TO ETERNITY

Mount Vernon, Ind., July 17. — As the result of a train dispatcher's error a head-on collision between freight trains occurred on the Louisville and Nashville railroad near Upton and four persons were killed and eight injured, one fatally. The dead are: John Spradley, Evansville; Leonard Price, Nicholasville, Ky.; Erwin Weber, Carmi, Ill.; L. G. Coker, McLeansboro, Ill. Engineer Lawrence McMichael, of Evansville, Ind., was fatally injured.

Others injured are: Conductor T. E. Choister, Evansville, Ind.; internally; Van Cleve, Nicholasville, Ky., badly bruised; Charles Ballard, Carmi, Ill., injured about head; Brakeman J. M. Dewees; Engineer James Joyce and Fireman Dunning, Evansville.

SENATOR CLARK IN A CRITICAL CONDITION

New York, July 17. — The condition of Senator William A. Clark, of Montana, who on Saturday underwent an operation for an abscess in the middle ear, is pronounced very satisfactory by Dr. James F. McKernon, who performed the operation. Dr. McKernon said that the senator rested well during the night and was doing nicely. Unless something now unforeseen developed, the doctor said, the patient would be able to sit up in about ten days.

Dr. McKernon called at 8 p. m. before leaving the house he would only say that the senator was doing as well as expected. While the information made public is all in favor of the patient the gravity of the senator's condition is not withheld from the family. They are aware that it will be at least four days before his ultimate safety

"Don't cry over spilled milk" was our earliest lesson in stoicism. For instance: If the house you have "had your eye on" was sold yesterday to your neighbor—simply because you had not been reading the real estate ads. lately, and didn't know it was for sale—let the incident instruct you, but not depress you.

ALFALFA BY IRRIGATION YELLOWSTONE VALLEY, MONTANA.

There are more than 60,000 acres of land watered by irrigation ditches and peculiarly adapted to the raising of alfalfa, for sale in the Yellowstone valley west of Billings, Mont.

The soil varies from gumbo to sandy loam, and alfalfa does well on all of it. The following figures show what alfalfa will do on irrigated, as compared with common hay on unirrigated, land.

One acre sown to alfalfa and irrigated, will produce 10,000 pounds of hay.

One acre in enclosed pasture, 500 pounds.

One acre of range averages 250 pounds. Or again:

One acre of irrigated alfalfa will feed one steer 400 days.

One acre of enclosed pasture will feed one steer 20 days.

One acre of average range will feed one steer 10 days.

Or putting it in the form of sheep, it will show as follows:

160 acres of irrigated alfalfa will maintain 1600 sheep one year.

160 acres of enclosed pasture will maintain 80 sheep one year.

And 160 acres of range will maintain 40 sheep one year.

EXPLOSION OF SODA WATER NEARLY KILLS W. FREISE

Stage Manager of Bijou Theatre is Struck in Neck With Flying Glass at Pettibone Park Yesterday.

The explosion of a bottle of "lemon sour" at the refreshment booth on Pettibone island yesterday afternoon came near ending the life of William Freise, stage manager of the Bijou theatre.

Bottles of refreshments were standing in the sun on the counter. Freise and a companion had purchased a glass of lemonade and the former had stooped to hand the glass to a child when the explosion occurred.

The bottle was blown to fragments and a long thin piece of glass was driven into Freise's neck, just below the left ear. He was partly stunned by the shock.

The wound bled profusely, but was dressed by a physician and was found to be less serious than was thought, though it came near the jugular vein.

It is supposed the heat of the sun caused gases to accumulate, and pressure of which the bottle could not withstand.

MAY ADMIT JANESVILLE IF BELOIT DON'T 'GINGER UP'

President John Powers of the Wisconsin State League, who was in the city over Sunday, stated that there were good indications that the Beloit franchise would be taken up by Janesville next year.

Poor support given in the membership of the state league and unless the fans turn out better at Beloit during the balance of the season there is little probability that the team will be continued next year.

Janesville has been clamoring for admission in the league for some time past and the attendance at times when Beloit has played there warrants President Powers in holding out some hopes to the Janesvillites of getting into the game.

Another plan that has been proposed in case Beloit gingers up and keeps in the game, is to transfer the franchise of the Freeport team to Janesville, thus having nothing only Wisconsin teams in the league.

The horse and buggy were carried down the stream a distance of three blocks before they could be gotten out.

MARNETTE, Wis., July 17.—Mrs. G. N. Norton made thrilling rescue of her 15-year-old daughter, Edna, and a little friend, Lottie McDermott, yesterday.

The girls were in a rowboat on Green bay when a storm struck them. In the excitement they lost an oar and were slowly drifting out from the beach and, although she had to walk out about half a mile, reached them before they went outside the bar, and towed them ashore. In a few minutes they would have been in deep water.

MOTHER TRIES TO KIDNAP HER CHILD

MONROE, Wis., July 17.—Sheriff Durst and District Attorney Sherron headed off Mrs. Frank Whitehead from leaving this city with her 4-year-old daughter, after an alleged attempt at kidnapping the child by the woman had been frustrated at Twin Grove, this county.

Mrs. Whitehead had gone home to Indiana, leaving the child here. She returned, however, and hired a livery team here and drove to Twin Grove. She managed to get the little girl into her carriage, and just as Whitehead made a dash for her, his wife lashed the horses. Whitehead was thrown down and the carriage ran over him.

The husband telephoned for Constable Baltzer, who got the mother and daughter at Juda.

As she was about to board the train here the sheriff and district attorney persuaded her to go to the courthouse.

Despite the fact that the child cried for her mother the judge decided that the father was to keep her.

The father is here in the hospital. He has not lived with his wife recently.

WOMAN REVIVES AS FUNERAL PLANS ARE MADE

DODGEVILLE, Wis., July 17.—After arrangements had been made for the funeral and the body was about to be prepared for burial, Mrs. Thomas Buckingham, who apparently died Thursday night, suddenly came to life last night. The apparent resurrection caused great joy among her friends. Physicians were summoned and it is believed that she will entirely recover.

The young woman across the way, who used to run for her car at six-thirty a. m., now leaves the house about eight o'clock. You see—she's a skilled stenographer, and a want ad. found a place for her where the hours of work are easier and the pay better.

Freeport lost her pitcher yesterday through a piece of childishness. La Crosse took a brace in batting and the result of the snappy game of yesterday afternoon was 14 to one in favor of the local team.

In spite of the intense heat a large crowd assembled and the game was one of intense interest.

In the first inning Pitcher Scott of Freeport got "sore" and threw his glove at Umpire Fay, whom he accused of calling a strike a ball. Scott was immediately ordered out of the game and fined \$5.00. A wordy war followed and Umpire Fay was subsequently fined \$10 by President Powers, who was present at the game, and will not umpire the remainder of the series.

Umpire Boland, the man with the loud voice, who made a hit here some time ago, will umpire the remainder of the series.

Manager Malven of the Freeport team went into the box, succeeding Scott, but was overcome by the heat, and was thus unable to direct his team capably. He attributes yesterday's defeat to the childishness of Pitcher Scott, but compliments La Crosse on the excellent hitting put up. La Crosse won Saturday's game by a score of 4 to 1.

The score yesterday was:

La Crosse . . . 6 0 0 1 1 4 1 1 *—14
Freeport . . . 0 0 0 0 0 0 0 1 0—0

Batteries—Heinke, and Dodge; Scott, Malven, Mathews and Karnell.

Today's Game.

Manager Malven of Freeport is confident that he will win both today's and tomorrow's games.

The batteries today will be: Freeport, Easton and Karnell; La Crosse, Hawley and Dodge.

Tuesday's batteries: Freeport, Schnieberg and Karnell; La Crosse, Jones and Dodge.

La Crosse now leads the league. Yesterday's game threw Freeport into third place, Beloit being second.

With two million pounds of wool in its possession the La Crosse Wool & Fur company at the present time has what practically amounts to a corner on the wool market in this section of the northwest.

No wool buying firm in the north-west ever had in its possession before, the amount of the product which this firm has succeeded in acquiring. The firm, however, will not admit it has a corner on the market, although in the same breath the manager stated that he had good reasons to believe there was little wool left to buy in this section of the country.

"We have cleaned up the state of Wisconsin in good shape," he said, and went on to state that the firm was still buying and adding to its enormous holdings.

The company's big store house at Front and Main streets is filled to the roof with the big bales of wool and every vacant store building which could be secured in the wholesale district around lower Main street is crammed. Cars upon cars of wool have been arriving over all lines running into the city for the past three weeks consigned to this firm from all over the northwest, and today the accumulation reached the two-million-pound mark, with more on the way.

It is the biggest undertaking ever attempted by a wool buying firm in the northwest. With the value of its accumulations already approaching the million dollar mark the firm's buyers are still scouring the country for more wool and the firm is looking for more vacant buildings in which to store it. Wool at wholesale is worth about 30 cents a pound today, and the magnitude of this undertaking can be readily seen when a drop of five cents in price would mean a loss of \$100,000.

ALDERMAN DOWNS HINTS AT GRAND JURY INVESTIGATION

Objects to Payment of Two Bills Which City Comptroller Failed to Stamp With Approval.

Hinting at probable disclosures of "graft" in the city hall if the grand jury was called to investigate, Alderman Downs last night created a sensation at the council meeting and succeeded in holding up a couple of bills by having them referred to the council as a committee of the whole.

"Unafraid of a grand jury," said Alderman Downs among other things. The incentive for the north side alderman to make his sensation remarks was the appearance of the bills audited by the finance committee. Mr. Downs had evidently been making an investigation, for after the reports were read he arose and demanded that he have a say as to whether or not city employees shall receive advance in salary. He then called attention to the fact that an increase of \$15 per month was provided for Assistant City Engineer Walter S. Wood, the monthly salary roll calling for \$100 for him. Nothing had been said of the raise until the bill was presented, his former salary being \$85 per month.

Alderman Bacheller explained with

CENSUS TAKERS TO SUE

If Not Paid Cent and a Half Will Go In-to Court.

Enumerators engaged to take the state census in the city will combine to demand a cent and a half per name as recompense for the work they have done, and unless this amount is paid them a suit will be instituted against City Clerk Sieger in the courts.

This in brief was the declaration made to a Tribune reporter this morning by one of the south side enumerators who has completed his work and is awaiting his pay.

Strange to state, none of the enumerators thought to make any sort of a contract or agreement with the city clerk as to the pay he was to receive, and many did not think of the matter at all until their work was completed. Then they began to wonder what they had been working for and endeavored to find out. But no light on the subject could be ascertained in the book of regulations furnished each enumerator by the state. There were long paragraphs regarding recompensation for city, county and village clerks, but nothing specific regarding the amount the enumerators were to receive. City Clerk Sieger seems to be as much in the dark as the enumerators, and declares he will make a trip to Madison next week to find out what he should pay the enumerators. The enumerators think they have a grievance and some of them are doing considerable talking.

The south side enumerator who said that the enumerators were determined to have at least a cent and a half per name for their work, stated further that no sort of a compromise would be considered; the matter would simply be taken into the courts if a cent and a half per name was not forthcoming.

SAVES CHUM'S LIFE

Lincoln Candrian Rescued Eddie Daniels From Drowning

The heroism and rare presence of mind of Lincoln Candrian, the young son of Editor Adolph Candrian of the Abend Stern, last evening, saved Eddie Daniels, the 12-year-old son of Lettercarrier Edward Daniels, from drowning at the public bath on Pettibone island.

The Daniel boy had ventured outside the swimming crates, during the absence of Swimming Instructor Anton Drews a nd was probably taken with cramps. He cried for help and was going down for the third and last time when the Candrian boy swam to his side and rescued him.

The drowning boy clutched his rescuer with a death grip and it was with extreme difficulty and danger that the Candrian youth succeeded in reaching the shore with his burden.

Master Candrian said nothing of the affair and the first known of it, outside of the few people at the bath at the time, was when instructor Drews sent a letter to his father this morning, complimenting the boy for his heroism.

MAYOR WILL ARREST "GASPING TERRORS"

Alderman Grover Makes Complaint Council of Flagrant Violation of Automobile Speed Law.

"If they were poor like the rest of us they would be arrested for it," said Alderman William Grover of the north side.

"All I have been waiting for is a complaint," responded Mayor William Torrance, "we'll arrest them if they're studded with diamonds."

"Then you can consider this a complaint and go after them," continued Alderman Grover, "for the north side people are tired of having their lives endangered by reckless automobile drivers."

And so it is that within a few days some of the wealthy owners and drivers of "Blue Streaks," "Red Devils," "Black Flashes," "Green Dragons" and "White Ghosts" may be brought to a halt with a jar, hauled into police court and fined for breaking the speed ordinance.

In the council last night Alderman Grover made earnest complaint against the manner in which automobiles were driven up and down the principal streets of the north side at the rate of, from 30 to 50 miles per hour and demanded that steps be taken to stop it. Mayor Torrance promised to take action.

"We shall arrest them," said the Mayor when questioned by a reporter today, "upon the first complaint."

"But don't you think the average citizen will shrink from taking the initiative in making complaint?" was asked.

"They have no reason to," responded the mayor. "Any citizen can complain and they will be promptly arrested. If I witness a breakage of this ordinance I shall promptly cause the arrest of the violator."

"Do you intend to instruct the police to enforce the ordinance?"

"The police have standing orders to enforce the ordinance," said the mayor, "but in most instances the speeding is done on the residence streets where there are no patrolmen, and we depend upon citizens to notify the authorities of a violation of the law. Anyone we catch driving an automobile to exceed 12 miles per hour will be arrested."

Alderman Grover's criticism which he later turned into a direct complaint to the mayor, before the council last night, was against the machine driven by Austin Cargill.

NEWSPAPER MEN ENJOY TRIP WITH W. S. CARGILL

Mayor of Viroqua Mourns Because He Had no Opportunity to Meet Distinguished Guests With Band

Representatives of the La Crosse press enjoyed the hospitality of W. S. Cargill in a junket to Viroqua over the La Crosse and Southeastern yesterday, and spent a most delightful day. The party left in Mr. Cargill's private car, which with the engine constituted a special train, at 10:30, arriving at Viroqua at 12:05.

Few of the party had been over the road before and the beautiful scenery and productive farms with their growing crops made a most pleasing panorama from the car windows.

The thrifty villages through which they passed also attracted considerable interest and came in for much favorable comment. The company has warehouses built or in course of construction at Stoddard, Chaseburg, Coon Valley, Westby and Viroqua. The road is very smooth, considering it is a new line and in places along the line the train speeded along at the rate of nearly a mile a minute with no inconvenience to the passengers.

Arriving at Viroqua Mr. Cargill escorted the party to the Hotel Fortney where a delicious dinner was served. While the party was at dinner Mayor Coffland was presented and extended a hearty welcome. He deplored the fact that he had not been advised of their coming. Had he known of it he would have had the best band in the state (the Viroqua band) out to

paid a compliment to the newspapers as one of the greatest factors in the commercial world and hoped that their influence would add much to the friendly relations existing between La Crosse and Viroqua.

The party started on the return trip soon after dinner and arrived here about 3:30. Upon arriving here Mr. Adolph Candrian thanked Mr. Cargill on behalf of the party for his generosity and genial hospitality and expressed for all the guests their keen enjoyment of the outing.

The Party.

There were in the party the following:

President W. S. Cargill, Supt. P. A. Valier, General Passenger and Freight Agent H. L. Chadwick, General Agent A. L. Eidemiller, Chief Engineer George Bradish, all officers of the road; Eastman Irvine, Captain I. H. Moulton, Mr. and Mrs. J. A. Grisdale, Mrs. L. H. Rood, Mr. and Mrs. George H. Manlove and S. G. Congdon and wife.

Mr. and Mrs. F. C. Bunn and child of Westby joined the party for the remainder of the trip and on the return Mr. and Mrs. I. S. Griffin, Mr. and Mrs. F. H. Graves and Senator and

Maine Feels Trembling Which Lasts For 15 Seconds

(Scripps-McRae Dispatch.)

PORTLAND, Me., July 15.—Two slight earthquake shocks were felt here at 3:10 o'clock this morning. Heavy shocks were felt at Augusta, Bangor and Brunswick. Reports from Thomaston say a shock of fifteen seconds' duration was felt there at five this morning. Houses were shaken and dishes rattled.

The shock was more severe in Central Maine. The state geologist says the quake was caused by the slipping of rock on the side of the fissure, probably three miles below the surface.

ENGINEER LEAPS FOR HIS LIFE

(Scripps-McRae Dispatch.)

HARRISBURG, July 15.—The Pennsylvania flyer, east bound, the new 18-hour train between Chicago and New York, struck a wrecked freight train while running at top speed near here early this morning. The freight train had backed, throwing a car across the passenger track. The flyer struck the car and hurled it from the track. The engineer of the flyer jumped when he saw the obstruction and was severely injured. The engine of the flyer was considerably damaged.

HOOKER CASE DEVELOPS ISSUE BETWEEN LEGIS- LATURE AND PRESS

Printed Serious Charges but Editors Are Mum

Albany, N. Y., July 15.—Editor-in-Chief Ervin Wardman, of the New York Press, was the storm center in the state legislature. His refusal to give his authority for his expressed belief that members of the legislature had been the subject of improper influences in connection with the trial of the charges against Supreme Court Justice Hooker produced intense excitement, and the question of the disposal of his case has entirely overshadowed in interest here the charges against Justice Hooker. Incidentally the situation has raised far-reaching questions as to the status and powers of the present joint session.

Want Their Accuser to Face Them.
The situation developed unexpectedly by order of the desire of members of the legislature to learn who wrote an article in The Press of last Wednesday in which it was asserted that both political pressure and "boodle" were being invoked in behalf of Justice Hooker to prevent his removal from office as a justice of the supreme court. Wardman appeared in person, and declared that the article had appeared during his absence on vacation and he did not know who wrote it. He was instructed to telephone during the recess to his managing editor, Hennessey, and ask him who wrote the article.

Editor Questions His Subordinate.
"I will ask him," said Wardman, "but I don't believe he will tell me." "Haven't you authority to compel him to tell you?" was asked.
"I could give him the choice be-

tween telling me and leaving the paper," replied Wardman, "but I shall not do that."

Wardman announced when recalled in the afternoon that he had asked Hennessey for the name of the man who wrote the article, but did not get the information sought.

More Subpoenas Issued.
"When you asked Mr. Hennessey and he refused," Wardman was asked in the afternoon, "what did you say to him?"
"I told him that I hadn't for a moment imagined he would tell me," replied Wardman.

Confronted with this situation the leaders hesitated, plainly at a loss what to do. Wardman was excused, but instructed to return next Monday night, to which time the session is adjourned. Meanwhile subpoenas were ordered to be served upon the managing and night editors of The Press. They were instructed furthermore to bring with them the original manuscript of the article objected to.

BIG ICE HOUSE IS BURNED WITH \$50,000 LOSS

KENOSHA, Wis., July 15.—The large ice house owned by the Tewes Brothers Ice company of Chicago, located at Silver Lake, in this county, was completely destroyed by fire at midnight. The loss is estimated at from \$40,000 to \$50,000, with partial insurance. It is supposed that the fire was started by a spark from an engine igniting the roof of the big building. The house was built last fall at a cost of \$35,000. It had a capacity of 50,000 tons of ice, but 20,000 tons had been sold this season. The company was one of the anti-trust companies.

Because a ship runs aground it is not to be inferred that it is a worthless ship; nor, in all cases, that the man at the wheel is an incompetent. In most instances a tug boat will find deep water for the grounded vessel. Because a business venture "runs aground" it is not to be inferred that it is a worthless venture; nor that its manager is wholly incompetent. A want ad. will usually bring the financial assistance needed to pull a grounded business venture into safe waters again.

He will cure you if you trust your case to his care. A great many have taken treatment of this specialist, and he can refer you to those who have been cured by him.

POSTOFFICE ROBBER IS WANTED IN INDIANA CITY

Sheriff Comes to Attempt to Secure
Harry Emmett--Pinkertons
Call Them Bad Ones.

Chief of Police Clegg of Jeffersonville, Ind., is on the way to La Crosse to attempt to secure Harry Emmett, one of the three alleged Stoddard postoffice robbers, with the object of taking him back to that city to answer to charges of safe blowing and intent to kill. As Emmett is now in the hands of the federal authorities it is very improbable that Chief Clegg will be able to take Emmett back to Jeffersonville until the United States court gets through with him.

Chief Clegg writes that Emmett was arrested in Jeffersonville in July, 1903, and escaped from jail the following September by sawing out. Word comes from the Pinkerton detective agency that the three now in jail here are notorious safe robbers and criminals of a dangerous type. Mrs. Cunningham, claiming to be the wife of one of the men, has arrived here from Michigan and is prepared to make a strong fight for the release of her husband. She has engaged Attorney Frank Winter.

THIS SCHOOL BOARD IGNORED THE STATE LAW

Springfield, Ill., July 15.—Charles M. Tinney, state sales agent for the board of prison industry, has filed a complaint with Governor Denney against the Chicago board of education charging violation of the amended convict labor bill. It is asserted that the school board recently purchased \$45,000 worth of school desks from A. H. Andrews & Co., Chicago, without securing figures from the prison industry board as provided by the new law.
Attorney General Stead has been requested to give an opinion to the governor in the matter. Tinney took up the matter of purchasing supplies with the Chicago board some time ago, but nothing was determined upon. Since then, he says, he has heard nothing from the trustees, but from other sources he learned that it had contracted with Andrews & Co. for the desks.

CONDENSED TELEGRAMS

Diabolical Negro Is Lynched.
Mobile, Ala., July 15.—Captain Doe, of the steamer Condor, which has arrived here from Cuba, reports that the negro McGill, who murdered the crew and eight passengers of the British cattle steamer Olympia, of Honduras, has been lynched. When McGill was captured at El Provienc he was placed aboard the Honduran warship Tatamular and sent back to Utilia Island. The natives planned to burn the prisoner, but later he was taken from the officials and hanged. The laws of the island forbid capital punishment.

New Cabinet Officer Wanted.

Portland, Ore., July 15.—The American Medical association in convention here adopted a resolution drawn up by Dr. Liston H. Montgomery, of Chicago, advocating the creation of a new cabinet position to be known as the department of public health, the secretary of which is to rank with other cabinet officers.

He Ate Four Dozen Eggs.

Montreal, July 15.—This city has produced the champion eater of the Dominion in the person of a French-Canadian longshoreman, Pierre Dalbre. The proprietor of the Neptune restaurant, one of the many places of refreshment adjacent to the water front, offered to bet \$2 that he could not eat four dozen boiled eggs at one sitting. The challenge was accepted, the eggs were produced, and in twenty minutes they were all down. He then offered to bet \$2 that he could eat two dozen more, but there were no takers.

Big Steal of Railway Freight.

South Bend, Ind., July 15.—Fully \$30,000 worth of goods has been stolen from freight trains on the Grand Trunk railroad between this city and Chicago by car thieves in the last three weeks. As a result of the heavy losses a swarm of detectives have been put to

Fire Suspends the Phone Service.

Columbus, O., July 15.—Fire damaged the mechanical apparatus in the Central Union Telephone company's building to such an extent that telephone service will be suspended for days. The loss to the company will reach perhaps \$25,000. Night operators fled for their lives as a shout of warning came from the alley in the rear of the building.

THE REORGANIZED BALL TEAM.

La Crosse baseball patrons are delighted with the present good prospects of carrying off the State League honors. The fans had their Valley Forge in the last days of Ramseyism; that star performer who could play and as often wouldn't play, was thought by many people to be the source of all the team's troubles. He very likely was. When the management traded Ramsey and Hopkins for one little man—Voght—well, some of the fans thought it was a bad swap. Now, however, there will not be a man in the stand who is not eager to admit that Voght has got Ramsey beaten to death and is a square little player to boot. Five hits in the last two games for Voght, and bully good fielding beside. Moreover, Cahill more than fills Hopkin's place in the field, and with the stick he has the former center garden man down and out.

It is not a stretch of the imagination that we have the best team in the league at this time. The boys have made a sensational advance to close second, but the quality of play is more convincing than the score book. Rusty Dodge is catching away ahead of this league; he is so steady that his splendid work no longer attracts attention except when about once a week he makes an error—the fans simply take it for granted that Rusty will deliver the goods all the time. O'Leary is playing a sure and snappy game at Third; Bond is the same old infallible; Voght is giving the fans a new conception of what a second baseman can do; Konetchy is there with the long reach and the good head on First; Clay (who by the way is a catcher and don't pretend to be a fielder) is becoming a rattling good fielder also, and his stick work is getting really good; Cahill is the goods in every particular; Miller is fielding fast and well, but his batting has fallen some from the high average with which he opened the season. In the box, Cole so far has been a disappointment, but the other boys are doing well indeed. Jones' head and accuracy make his work stand up without speed; Hawley has both speed and head, and is the safest man in the league; Dodge has a wonderful arm, and his headwork is improving, he is "big League" material and is said by visitors to be the best "pegger" in the league.

If the team gets three out of four with Freeport this series, we will be satisfied, although four straight would suit better still. It is the expectation of the fans that we will get more than an even break with the Illinoisians, and if we do it looks like a gallop down the stretch for the La Crosse aggregation. The eyes of all are on the team this week, and everybody is pleased. There is no more knocking; every man in the stand is a booster and they have something worth the boosting. Since Ramsey left, there has been harmony, headwork and clean baseball.

And now that the clamoring of the fans for better players and the elimination of the trouble makers has been recognized by the management, everybody should get out to the games. Boost the team along; show your interest in the game; let the boys know that La Crosse doesn't do things by halves and they will play better for it. For, as Billy Cargill is said to have said, "We are going to get that pennant if we have to hire the whole Southern League."

GENERAL BUSINESS IN FAIR CONDITION

SAYS DUN REPORT OF OUR TRADE

New York, July 15.—R. G. Dun & Co.'s Weekly Review of Trade says: Seasonable merchandise goes into consumption more freely than usual, retail trade exceeding expectations at many points, and preparation for fall and winter business is on a liberal scale, except in a few agricultural communities where there is a disposition to await definite assurances regarding the crops. The official report was more encouraging as to grain, and later dispatches to this paper from the principal farming centers indicate that good results are being attained, despite some excess of moisture.

Manufacturing reports are irregular, the cotton industry being unsettled by the rise in raw material; woolen mills have a similar, but less sensational, obstacle; footwear shops are shipping less freely, but are maintaining the higher level of price, and current dullness in pig iron does not weaken confidence in any early resumption of liberal purchases. Dun's index number on July 1 was 898.312, against 898.759 a month earlier, and 897.102 a year ago.

Failures this week were 223 in the United States, against 225 last year, and 26 in Canada, compared with 20 a year ago.

"BLUE DEVIL" MACHINE AT MAD PACE, SCARES PEOPLE

North Siders Hold Their Breath as Big Packard Car Driven by Boys Dashes by at Top Speed.

A large auto car caused a sensation on the two blocks of brick pavement on Mill street yesterday afternoon. Two sole occupants of the auto were two young men. When they struck the brick pavement at Hagat street they "let her go" to the fastest speed and then sat back without even holding the steering apparatus or controlling lever.

All that pedestrians or spectators could see was a cloud of dust and many residents of the district who saw them pass rushed into the street expecting an accident.

The gates at the crossing raised just before they reached the crossing and some one was on the crossing in their path.

Some of the spectators held their breath and thought that they would

certainly be struck but the chauffeur, who seemed to be an expert, swung to one side and dashed on. The auto continued its mad pace down the street and was soon lost from view.

North side citizens are very indignant over the matter and say that they will at once proceed in some way to have reckless driving stopped, before someone is killed.

"They have been making some fast time on Avon street of late but to have a car go at full speed down Mill street within a space of two blocks when they could plainly see that the gates were down in front of them is the limit," said a prominent business man this morning, "and if it is not stopped, I will have a petition introduced in the council to see what we can do."

NORTH SIDE BRIEFS

Conductor H. Schulz of the Burlington road is enjoying a short vacation. J. Egan, proprietor of the Egan Plant at the corner of Berlin and Rublee street has gone to Minneapolis in the interests of the firm.

H. L. Hicks and wife of 1916 George street, have gone to Lincoln, Neb., where they will spend several weeks with relatives.

Dr. G. W. Kempter and daughter, Lorene, of Alma, Wis., are the guests of Dr. and Mrs. A. R. Kempter. George Keyes and daughter, formerly of the north side but at present of Minneapolis, are the guests of relatives and friends here.

The young people of the St. John's church will give an ice cream social next Tuesday evening in their hall under the church at the corner of Avon and St. James street.

SECOND CAUSEWAY AND A CARNEGIE LIBRARY PLAN

North Side Gets Bulk of Consideration Before Last Night's Meeting of the Council.

One of the most important meetings of the council held for some months occurred last night, when the aldermen disposed of a large amount of business which has been accumulating in the city clerk's office.

The sum of \$10,000 per year was voted to maintain a Carnegie library on the north side if a \$10,000 donation for the construction of a library can be secured from Mr. Carnegie.

Second Causeway.
The council adopted the report of the special street improvement committee asking the city engineer to prepare plans and specifications for the construction of a second causeway between the north and south sides.

Wants Billposting Trust.
An ordinance providing for the licensing of bill posters in the city at \$25 per year was given its first and second readings. It requires that each licensed bill poster wear a badge and be required to furnish a bond of \$1,000 to operate in the city. The measure is designed by the local billposter to make his business "exclusive."

New Bridge.
A bridge was ordered constructed over Swift creek to cost \$800 and the work will be done by contract.

Force Burlington.
A resolution was passed notifying the Burlington officials that a roadway must be dug through the company's filled in trestle on St. Andrew's

Lawson Cannot Visit La Crosse

Owing to prearranged schedule, and the fact that all of his dates were filled months in advance Thomas W. Lawson, the Bostonian and enemy of the Standard Oil system, cannot come to La Crosse.

Lawson spoke at Albert Lea, Minn., yesterday, to a good sized crowd, his address being marked by his usual line of strong argument against the dollar values.

CIGARETTES IMPORT- ED BY SMOKERS

Since the recent decision by the at-

torney general that cigarettes and cigarette papers can be imported from outside the state without liability under the new anti-cigarette law, the supplies of local "fiends" have been generously replenished. Cigarettes are being ordered from stores in Chicago, Minneapolis and other cities outside the state.

Mrs. Lexius Gets \$500.

Catherine Lexius, widow of the late Henry Lexius, will receive \$500 in settlement of her judgment of \$600 against the city, for an injury sustained by her husband in falling on a defective sidewalk a year or more before his death in a runaway accident at Milwaukee.

The council voted \$350 for the purchase of an adding machine for the officials in the city hall.

Want New Car.
A petition was received asking that the street railway company be requested to do away with the "converted horse car" in use on the Market street line and provide a modern car for its patrons.

Road to Build Stock Pens.
An ordinance was introduced giving the Milwaukee railroad company the privilege of establishing extensive stockyards in the eastern part of the north side. This is the forerunner of an extensive plan of the railroad company to make this a big feeding center for stocken route from the west to Chicago. Feeding pens and big yards will be constructed and the improvement will give employment to a number of men.

**ALD. SCHULTZ, HE
FELL INTO A
PUDDLE**

Alderman Schulze fell off a street car while on his way home from a council meeting last Tuesday night and landed in a mud puddle with most distressing results to a nice new light suit of clothes. Last night Alderman Valentine presented the following resolution, which was referred to the fire committee:

"Resolved, That the fire department provide suitable hooks, ropes and other devices with which to hold Ald. Schulze on the street car as he rides home from the council."

DR. JORRIS MAY BE REAPPOINTED TO MEDICAL BOARD

SESSION ENDS AT
MADISON YESTERDAY

Dr. A. U. Jorris of this city has returned from Madison where he attended the annual meeting and examination of the state board of medical examiners.

It will be two weeks or more before the eighty-one young men who took the state medical examination will know whether they will be allowed to practice in Wisconsin. The state board finished its work yesterday and distributed the papers among its different members for markings.

The terms of four members of the board have expired and it was expected that the governor would announce the appointment of their successors when he was in Madison yesterday, but he did not do so. Two of those whose terms have expired cannot be reappointed, as they have served two consecutive terms, the limit under the present law. They are Dr. J. R. Carr, of Two Rivers and Dr. Philip Forsbeck of Milwaukee, president and secretary respectively of the board.

The two others whose terms have expired are Drs. J. V. Stevens of Jefferson and Dr. A. U. Jorris of La Crosse. It is reported that Dr. P. H. McGovern of Milwaukee will be appointed to succeed Dr. Forsbeck.

FARMER EMPOVER- ISHED BY DESTRU- CTIVE STORM

Farmers in the vicinity of Homer, south of here, are practically paupers as the result of a destructive hail storm which struck that vicinity a few days ago. The Viroqua Republican says:

"Reports indicate that the destruction of crops was practically complete and that the farmers have lost their all. Trees were denuded of leaves and bark; all there is left of the waving fields of grain is short stalks, bleached white by the sun. The corn is gone. There will be no hay cut. The pastures are gone. Never did hail in that neighborhood accomplish more complete destruction."

DE SOTO MAN FINDS PEARL WORTH \$100

Fred Loucks, a resident of DeSoto who has engaged in clam fishing during the present season, has discovered a pearl which is valued at \$100. The gem was sold to a Prairie du Chien pearl buyer for that amount. Reports from down the river indicate that a large number of small pearls are being found this summer, though no real large ones have been found.

Breaks Collar Bone Playing Baseball

Art. Harkness, short stop for the Caledonia Maroons, broke his collar bone while playing ball at Spring Grove. He made a three base hit when up to bat and in running the bases his toe caught the first bag and he stumbled, striking the ground heavily on his head and shoulder. By a supreme effort he succeeded reaching second base before collapsing. He was given medical attention at Spring Grove.

DREW FATAL BLACK BALL; IS NOW A CORPSE

MARINETTE, Wis., July 15.—Friends of Victor von Task of this city, who disappeared July 4, have received a letter signed by the missing man which says that he drew the black ball in a duel by lots with a German army officer and that he will be found dead as a result.

Von Task, who is a young man, was a bookkeeper at the Menominee, Mich., Electrical works. According to the letter his death would result from a dispute of several years ago while he was a German army officer.

A duel was proposed and then it was agreed that they draw lots as to who should make way with himself. Von Task drew the black ball, which meant his death by his own hand.

The letter is dated July 5 and was written apparently at Green Bay. It is stated that Von Task left Germany, being afraid to carry out his promise.

Then, it is declared, either through a sense of honor, or through being haunted or fearing pursuit from his enemy, who knew he was still alive, Von Task was forced to carry out his part of the agreement to die.

A search for Von Task at Green Bay has revealed nothing.

THE LA CROSSE TRIBUNE

FRANK, FAIR AND FEARLESS!

The Tribune is in every sense *of* the word the people's "Home newspaper."

It is clean and wholesome in both its news and advertising columns.

Its news service is equal to that *of* the largest metropolitan newspapers.

It does not print questionable advertising, nor permit one advertiser to attack another through its columns. It is a *Safe* newspaper!

The Tribune is a newspaper that no man or woman need be ashamed to be seen reading, or afraid to have enter their home.

The Tribune prints more local, personal, fraternal, religious or social news of La Crosse *and* the State than any other La Crosse paper.

The Tribune prints more Local Advertising than any other La Crosse newspaper--proof that it reaches the homes.

The Tribune prints better sporting news than any other La Crosse newspaper.

The Tribune is the only paper in this territory publishing the unequalled New York Herald Illustrated News-Service.

The Tribune stands for the eradication of corruption *and* graft.

It Reaches the Homes and Hearts of the People and Is
La Crosse's Best Advertising Medium

ISTHMUS CONDITIONS HAVE BEEN EXAGGERATED HE SAYS

SICKNESS IS SELDOM FATAL SAYS CHAIRMAN SHONTS

Plans for the Benefit of the Employees on the Canal Job

Oyster Bay, N. Y., July 15.—Among the visitors to the president were Chairman Shonts and Chief Engineer Stevens, of the Panama canal commission. After a long conference with the president Chairman Shonts talked frankly about the work of the commission and about canal conditions. "Our talk with the president today," said he, "was of a general character about canal matters. The president desired to see Mr. Stevens before we left for the isthmus and to discuss with both of us the progress of the work. Just now we have about 12,000 men at work on the canal. That is about as many as we could employ under the existing conditions.

Work of Organization To Be Done.

"We have our executive staff thoroughly organized now, but the organization has not been completed on the isthmus. That is apart of the work Mr. Stevens will have to do. His engineering staff must be organized and its work mapped out. We must make arrangements for the housing, feeding and general care of our employees, in itself a great task, and we must complete the sanitary arrangements in the American zone. All this will require time and energy and hard work, but it will be accomplished successfully.

Recreation for the Employee.

"I have about concluded arrangements with a man who is to go to the isthmus to arrange for the recreation of the canal employees. We will have reading rooms, amusement halls and all that sort of thing, by means of which the men may pass their idle hours pleasantly and profitably. The sanitary conditions on the isthmus are not so bad as they have been reported to be. A lot of people have become frightened by the yellow fever, but it is not so bad as might be expected.

REPORTS MUCH EXAGGERATED

Facts About the Number of Victims of Yellow Fever.

"In fact thereports from the isthmus regarding health conditions have been grossly exaggerated. Judge Magoon has sent reports that present the exact conditions, and they have been made public precisely as he sent them. He and I agreed before we went to Panama that the exact conditions should be made public, and that agreement has been kept both by him and by me. Out of twenty cases of yellow fever in May we lost only four. The sanitary conditions are being bettered all the time. "My belief is that the actual digging of the canal will have to be done by laborers inured to the tropical climate. That labor we shall be able to get, I believe, without any serious trouble." Asked whether it was his idea to use Chinese labor on the canal to any extent he replied that some Chinese from the rice fields of southern China probably would meet the labor requirements on the isthmus, but he doubted whether the northern Chinese could live and work well in the tropical climate of Panama.

Advertising to the Panama railroad, he said: "We have been devoting a good deal of time recently to the Panama railroad. It is now in excellent condition." Chairman Shonts was asked whether he could say anything regarding the proposed transfer of the isthmian canal commission and its affairs from the war department to the state department. "I think," he replied, "you would better get that information from the president. I can say, however, that no definite decision yet has been reached."

Cut Worms Eat Field of Corn

Grand Rapids, Mich., July 15. — An entire field of young corn was eaten up in a night by cut worms on the farm of L. A. Hubbard, of Plainfield township. At night he noticed the worms working in his corn lot, and the next morning, instead of a green field of the season's second planting Hubbard had practically bare ground. He at once set to work to try to save his other corn fields by plowing furrows around the field, throwing the furrow away from the field, leaving the sharp, perpendicular land side toward the corn. This has proved effective as the worms could not climb the wall. H. R. Farnum, of Sand Lake, president of the Kent County Farmers' institute, visited the Hubbard farm and found that most of the crop had been cut off clear to the surface of the ground.

Old Man Was a Tough One

Altoona, Pa., July 15.—Barnesboro, Cambria county, boasts of a man who is regarded as having more lives than are generally accredited to a cat. He has just come through an ordeal that would kill ninety-nine of a hundred young men of vigor, although he is 70 years old, went through the war, was shot through the body, and has worked hard all his life. Jonathan Nelson is the man physicians regard as a wonder. On May 25, while working on the roof of a house, his foot slipped and he fell twenty-six feet to the ground.

He was picked up for dead. After being taken home he showed signs of life, and an examination of his wounds disclosed that his left hip was dislocated, left ankle out of joint, right wrist broken, five ribs broken, chest bone broken, three teeth knocked out, skull fractured, left collarbone broken and his back badly wrenched. The attending physician said he could not recover, but he proved to be a poor guesser. Nelson now goes out for a walk daily, although he is being held together with splints, adhesive plaster and cotton.

Do you live in a "Homelet?" The want ads. have a peculiar interest to those who dwell in furnished rooms—"homelets"—for it is so easy for these people to move that they will not tolerate small annoyances.

A WORD OF ADVICE

If you would find the paths to health, seek the advice of a reputable physician, who, through scientific research and years of experience, can give the necessary skillful treatment, says Dr. Turbin, the well known specialist of Chicago, to the countless thousands of sufferers in need of medical treatment.

Delay in taking steps to check the progress of disease, until the system is so depleted as to make the trouble chronic, places the case beyond the control of a practitioner who has not made a careful study of modern methods, or had the experience which precludes all doubt of his diagnostic ability and makes him sure of the method of procedure in each and every case.

That Dr. Turbin is qualified in every way to meet these requirements, has been proven by the way in which he has won the esteem and confidence of our people, through the relief he has afforded so many of our friends and neighbors.

The remarkable success which has attended his monthly visits here can be attributed to the skillful and conscientious treatment of his patients and a thorough knowledge of his specialties in chronic diseases.

Consultation and examination are free, and those in need of medical treatment would do well to call and see the doctor when he visits La Crosse Monday, July 17, at Hotel La Crosse.

"Don't cry over spilled milk" was our earliest lesson in stoicism. For instance: If the house you have "had your eye on" was sold yesterday to your neighbor—simply because you had not been reading the real estate ads. lately, and didn't know it was for sale—let the incident instruct you, but not depress you.
